

About College

Mohamed Sathak Engineering College (MSEC) was established in Kilakarai in 1984. It is worth to note that MSEC was the very first Self – Financing Engineering College established in the state of Tamilnadu. We are the pioneers in the field of Engineering possessing rare courses from like Aeronautical Engineering, Chemical Engineering, Architecture, and Marine Engineering. So far more than 15000 UG & 2500 PG students got graduated from our institute and are placed well off in National & International Levels. The College has more than normal facilities expected of an Engineering College of high standard. Classrooms are spacious and airy. All the labs are well equipped. Computer laboratories are well organized with Internet facilities available to each and every student. Language lab is established with all modern equipment enabling students improve their communication skills. A computerized Library with well-stacked volumes of books and journals, quenches the intellectual thirst of the students. Vast playgrounds and a multi-station gymnasium keep the students fit and healthy. Separate hostels are there for boys and girls

About Department

The Department of Information Technology was established at 1999 to meet the demand for well-qualified computer professionals. It focuses on holistic learning and empowering students to make significant contributions at all levels. The cafeteria system of electives gives a handful of choices for students to develop expertise in their area of interest. It has one of the best infrastructures including domain-specific labs. Also it has a good record of organizing seminars, workshops, symposia and conferences in emerging technological areas. Our department student intake around 60 per year and we are managed with 09 Faculty member with effective teaching methodology. To train students with good breath of knowledge in core areas of information technology and related engineering so as to comprehend engineering trade –offs, analyze, design and synthesize data and technical concepts to create novel products and solutions for the real life problems. To attain 90 percentage results in university examination. To ensure 100 percentage placement assistance to passing out students. To inculcate in students to maintain high professionalism and ethical standards, effective oral and written communication skills to work as part of teams on multidisciplinary projects and diverse professional environments and relate engineering issues to the society, global economy and to emerging technologies.

About IEI

The Institution of Engineers (India) [IEI] is a statutory body to promote and advance the engineering and technology, established in 1920 and incorporated by Royal Charter in 1935. It is the largest multi-disciplinary professional body of engineers encompassing 15 (fifteen) engineering disciplines with a membership of more than 820 thousand, and serving the nation for more than 9 decades. The IEI has its headquarters' located in Kolkata with national presents through more than 100 centers and several overseas chapters, Foras and organ.

About Symposium

A symposium is a formal gathering in an academic setting where participants are experts in their fields. These experts present or deliver their opinions or viewpoints on a topic of revolution Technology. It would be correct to label a symposium as a small scale conference as the number of delegates is smaller. There are the usual discussions on the topic after the experts have presented their speeches. The chief characteristic of a symposium is that it covers a single topic or subject and all the lectures given by experts are completed in a single day.
