IIT Bombay

AGREEMENT BETWEEN
MOHAMED SATHAK ENGINEERING COLLEGE, KILAKARAI, TAMIL NADU
AND
SPOKEN TUTORIALS, IIT BOMBAY

We are happy to announce that Spoken Tutorial Project, IIT Bombay has decided to make **Mohamed Sathak Engineering College (MSEC), Kilakarai, Tamil Nadu** as a SUPER RESOURCE Center. We hope the your group will offer the training to all the students of your premises in a time bound manner (via time-table / curriculum presence), Institutional awareness activities and later might spread awareness of the project in the state. *The project is a part of the National Mission on Education through ICT, MHRD, Govt. of India, to spread IT Literacy all over India.* We are offering an award winning MOOCS, the Audio-Video teaching tool, 'Spoken Tutorial', which is used to teach a variety of Software. These provide Software Skills with both employment focus and academic focus.

We are ready to support you in your efforts to train students on General Computer Skills, Programming and Scripting Software and specialised IT tools. The course and the training will be offered free of cost to all Institutions.

Specific activities will be -

IIT Bombay Side:-

- The Spoken Tutorial team at IIT Bombay will work with you / your Coordinators and arrange the mentioned training programme for all relevant courses offered in the College.

- We will publicise any event organised by the group related to this training on our website.

- The team will also support and guide all individuals at the Institution / Department level as they firstly introduce the training and then gradually expand it to all.

- The team will also provide brochures, leaflets, posters, etc where necessary, free of cost.

Mohamed Sathak Engineering College's Side:

- Overall / Chief Coordinator to identify and appoint Institutional and departmental Coordinators for all campuses and update the ST Team IIT Bombay accordingly

- Upload this signed SRC agreement letter on the Home Page (prominent space) of the Institution's website.

- Motivate and guide all the departments to start the the training from this Academic year through Time-Tables / curriculum inclusions and continue thereon.

- For all computer Lab courses, the group should include the relevant Spoken Tutorial based Software and mention **'Spoken Tutorials as E-Resource for learning'**, with site link in the
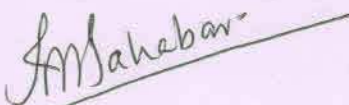

Syllabus (as reference material) and in Time Table. The printed (attested) copy of the same should be shared with the Spoken Tutorial IIT Bombay team.

- The College will ensure that this exercise is ready for 2015-16 calendar year time-tables for all semesters, prior to semester start date and continue the procedure thereon.

- Explore the possibilities for Spoken Tutorials, based Software courses to be offered as stand alone/ add on courses to cover maximum departments' students where there is lesser relevance.

- Create and conduct Spoken Tutorial FOSS club activities and submit to us the periodical (monthly) report.

- The group will initiate the process of lab migration into Open Source, where-ever possible.

- Mention the name of the ST-IIT Bombay Tamil Nadu State Coordinator's contact details on the College website.

- Encourage / motivate other Colleges present in and around Madurai - Ramnad Educational region, thereafter in the rest of Tamil Nadu.

Note:- This agreement is subject to change from time to time on mutual understanding.

If you are in acceptance with the above mentioned points, please sign and send us the scan at the earliest. We are here to support you with sustained interaction.

ABOUT THE DEPARTMENT

The Department of Mechanical Engineering was started in the year 1984. It is one of the well established departments in the institute with strong well built facilities and excellent library. The department has Dynamics lab with all the facilities aside Thermal engg.lab and Manufacturing technology lab etc.

INTRODUCTION

This workshop will provide a comprehensive training in the intelligent and effective use off simulation software. It will also emphasize proper selection of thermodynamic models in simulator and provide pertinent background behind the simulation of various operation. It will demonstrate the steady state and dynamic simulation of fluid flow along with its applications.

VALUE ADDED COURSE SYLLABUS

- **Fluid Dynamics/Physical Modelling**

  Initial conditions, Boundary conditions, Introduction to turbulence, Turbulence modelling essentials.

- **Numerical Solution / Computing**

  Numerical solution overview, Parallel running, Discretization introduction, Discretization of diffusion.

- **Geometry and Meshing**

  Geometry generation, SnappyHexMesh introduction, snappyHexMesh enhancements, snappyHexMesh refinement.

- **Data Analysis**

  Visualization introduction, Data formats, Graphs and surfaces, Objective measures,

ABOUT THE COLLEGE

Mohamed Sathak Engineering College (MSEC) was established in Kilakarai in 1984. It is worth to note that MSEC was the very first Self -Financing Engineering College established in the state of Tamil Nadu.

We are the pioneers in the field of Engineering possessing rare courses from like Chemical Engineering, Aeronautical Engineering, Architecture, Marine Engineering. So far more than 15000 UG & 2500 PG students got graduated from our institute and are placed well off in National & International Levels.

The College has more than normal facilities expected of an Engineering College of high standard. Classrooms are spacious and airy. All the labs are well equipped. Computer laboratories are well organized with Internet facilities available to each and every student.

A computerized Library with well-stacked volumes of books and journals, quenches the intellectual thirst of the students. Vast playgrounds and a multistation gymnasium keep the students fit and healthy. Separate hostels are there for boys and girls.

DURATION:
40 hours @4 hrs daily

PARTICIPANTS: IV-year Mechanical engineering students.

INTRODUCTION

The technology industry has been moving towards open standards and cloud computing is the next logical step. *A Survey says that "By 2012, 80 percent of Fortune 1000 companies will pay for some cloud computing service, and 30 percent of them will pay for cloud computing infrastructure".* Cloud Computing means outsourcing the computing requirements and receiving the services through the Internet connection. Cloud computing has the potential to revolutionize the way we build and deploy applications. This course provides an insight into the Cloud computing environment, the infrastructure, Security aspects etc., which will help the academicians to know about the technology associated with cloud computing.

COURSE CONTENTS

- Journey to the Cloud
- Classic Data Center (CDC)
- Virtualized Data Center (VDC)-Compute
- Virtualized Data Center -Storage
- Virtualized Data Center - Networking
- Virtualized Data Center — Desktop and Application
- Business Continuity in VDC
- Cloud Computing Primer
- Cloud Infrastructure and Management
- Cloud Security
- Cloud Migration Considerations

ABOUT THE COLLEGE

Mohamed Sathak Engineering College (MSEC) was established in Kilakarai in 1984. It is worth to note that MSEC was the very first Self – Financing Engineering College established in the state of Tamilnadu.

We are the pioneers in the field of Engineering possessing rare courses from like Aeronautical Engineering, Chemical Engineering, Architecture, Marine Engineering. So far more than 15000 UG & 2500 PG students got graduated from our institute and are placed well off in National & International Levels.

The College has more than normal facilities expected of an Engineering College of high standard. Classrooms are spacious and airy. All the labs are well equipped. Computer laboratories are well organized with Internet facilities available to each and every student. Language lab is established with all modern equipment enabling students improve their communication skills.

A computerized library with well-stacked volumes of books and journals, quenches the intellectual thirst of the students. Vast playgrounds and a multi-station gymnasium keep the students fit and healthy. Separate hostels are there for boys and girls.

INTRODUCTION

The technology industry has been moving towards open standards and cloud computing is the next logical step. *A Survey says that "By 2012, 80 percent of Fortune 1000 companies will pay for some cloud computing service, and 30 percent of them will pay for cloud computing infrastructure".*

Cloud Computing means outsourcing the computing requirements and receiving the services through the Internet connection. Cloud computing has the potential to revolutionize the way we build and deploy applications. This course provides an insight into the Cloud computing environment, the infrastructure, Security aspects etc., which will help the academicians to know about the technology associated with cloud computing.

COURSE CONTENTS

- Journey to the Networks
- LAN switching technologies
- Routing Technologies
- Network Technologies
- LAN Technologies
- WAN Technologies
- Infrastructure Services
- Infrastructure Security
- Infrastructure Management
- Network Security
- Security Considerations

ABOUT THE COLLEGE

Mohamed Sathak Engineering College (MSEC) was established in Kilakarai in 1984. It is worth to note that MSEC was the very first Self – Financing Engineering College established in the state of Tamilnadu.

We are the pioneers in the field of Engineering possessing rare courses from like Aeronautical Engineering, Chemical Engineering, Architecture, Marine Engineering. So far more than 15000 UG & 2500 PG students got graduated from our institute and are placed well off in National & International Levels.

The College has more than normal facilities expected of an Engineering College of high standard. Classrooms are spacious and airy. All the labs are well equipped. Computer laboratories are well organized with Internet facilities available to each and every student. Language lab is established with all modern equipment enabling students improve their communication skills.

A computerized Library with well-stacked volumes of books and journals, quenches the intellectual thirst of the students. Vast playgrounds and a multi-station gymnasium keep the students fit and healthy. Separate hostels are there for boys and girls.

FINAL Assessment & LOI for a Potential CISCO Academy

Institute and Student Assessment

1. Institute Name : *Mohamed Sathak Engineering College*

2. Location : *East Coast Road, Kilakarai - 623 806, Ramanathapuram Dist*

3. How old is your institute? *30 Years*

4. Source of Funding for the Institute : *Mohamed Sathak Trust*

5. AICTE approved : *Yes*

6. Affiliated to any University – *Anna University Chennai.*

7. Any tie – *ICTACT, Indo-US Consortium for Engineering Education, ISTE,IEEE,IEI, RANDSTAD,CSI*

8. Total number of students: *2217*

9. List of Courses offered along with students in each course: to be filled by cisco - *ref Anna University admission*

10. Number of the students   : *2217*

                  Male   : *1665*

                  Female: *552*

11. Are there any sponsored students in the college? *NIL*

12. Do you run any other IT courses?

      Ethical Hacking, Android Application Development, Grid and Cloud Computing, Cloud Infrastructure and Services.

13. Any other industry affiliations? *NIL*

14. Research going on at the institute in networking? *NIL*

Lab Assessment

1. No. of computers in existing lab. *354 computers in CSE, IT, MCA, EEE and ECE Labs*

2. What is the typical configuration of these computers (PIV/others)

     i. *i5 Processor, 8GB RAM, 500 GB Hard Disk,*

     ii. *DualCore Processor, 2GB RAM, 160 GB Hard Disk*

3. No of students who can use the lab at one point of time : *1:1*

4. No. of days lab is free in a week - *2 Days*

5. No. of hours for which the lab is free on the above days - *12 Hours*

6. Internet Connection : *Leased Line (48 Mbps)*

7. No. of Lab Assistants: *18 nos*

Faculty Assessment

1. Total Number of Faculty Members in the IT/CSC/MCA/ECE/EEE Department: *74*
2. Technical Faculty (Any certified^ faculty – CCNA/CCNP, etc) *NIL*

   ^ - *Certified faculty get the benefit of undergoing training on a fast track basis*
3. Number of Faculty Members   :*NIL*

          Male   :*NIL*

          Female   :*NIL*
4. Number of Female faculty members who are interested in imparting training on the Cisco programs: *NIL*
5. Your institutes commitment on manpower resources to run the program: *3*

Scheduling

1. If you agree to the program requisites and Cisco gives the go ahead when do you intend establishing 30sytems LAB to enable you to start the program? *YES*
2. When can you send your faculty members for training? *JULY 2014*
3. Date by when you will enroll students for the Cisco Networking Program once your faculty is trained to impart training? *August 2014*
4. Proposed number of students who would enroll in the program(all III yr circuit branches for I & II Module & successful students for III & IV / Any STRATEGIC Plans) : *120 Students / Year*
5. Proposed number of batches you could organize(batch size 30 students) : *4 Batches*
6. Proposed number of hours/week for each batch: *8 Hours / Week*
7. Proposed number of hours/week or hours/day one trained faculty would teach: *8 Hours / Week*

Costing

1. Current charge for your existing Engineering (B.E) / MCA course /IT course for each Semester or per year cost from students - *As per Anna University norms - Rs 40,000 for students entering through counseling and Rs 70,000 for students from Management Quota.*
2. How much do you intend charging students for the Cisco Program?(not exceeding 10000/- for all the four modules) *Rs 6000 for our Students and Rs 8000 for outsiders.*
3. Are you aware that your institute will be charged for support and mentoring that it gets annually (Yes/Rs13500/-) : *YES*
4. For running courses like CCNA EXPLORATION & DISCOVERY the institute would need to do an one time investment of Rs550000/- (five lakh fifty thousand + 5% tax only)towards all requisite equipment bundles inclusive of the softwares , networking products , authorization , instructor

training and promo materials apart from the 30systems lab .Has the institute apportioned funds for this investment For CCNA kindly mention " YES " if you're ready to pay against the completion of CISCO ACADEMY AUTHORIZATION AND DELIVERY OF PRODUCTS : *YES*

5. For running IT Essential course the institute would need to do an one time investment of R150000/- (one lakh fifty thousand + 5% tax only)towards all requisite equipment bundles inclusive of the softwares , products , authorization , instructor training and promo materials apart from the 30systems lab .Has the institute apportioned funds for this investment For ITE kindly mention " YES " if you're ready to pay against the completion of CISCO ACADEMY AUTHORIZATION AND DELIVERY OF PRODUCTS: *YES*

6. Besides the above does the institute possess secondary passive equipment like UTP cables, RJ45 jacks, wire strippers, etc

Reference List of non-Cisco Necessary Lab Equipment (please mark with a X)

S. N.	Equipment	Already Have	Needed
1.	Web server - for storing approximately 130Mbytes of zipped web-based curriculum content	X	
2.	Hub/switch 8-port unmanaged - 4 units		X
3.	Cat 5 Twisted Pair Ethernet UTP Cables - Approximately 45 metres/150 feet per student		X
4.	Cat 5 Twisted Pair Ethernet Connectors - 12 per student in the CCNA 1 Module class		X
5.	Cat 5 Crimping tools, wire cutters and punch down tools - 6 sets per class based on a 30-student class		X
6.	Cable tester - 1 per class (this could range from a simple continuity tester to tester that can check total throughput of the cable)	X	
7.	Six 568B Standard Patch Panels		X
8.	Two 19-inch Communication Racks, inter-connected by Cable Tray		X

7. Are you willing to cover all costs ie travel, accommodation, meals expenses and costs incurred in sending your faculty to attend Instructor training classes? *NIL*

8. Have you budgeted the above amounts of investment in your cost recovery from students: *YES - On a nonprofit basis*

Placement Facilities

1. Is there a Placement Cell? *YES*

2. Percentage of students placed in the last 3 years : *92%*

3. Average starting salary for the students placed last time: *Rs 15,000 per month*

4. Promotional Activities of the college : *Inter School Project Expo, Polytechnic Symposium and Various Placement Drive ,Career guidance program, Placement Training Program.*

5. Any awards given for excellence to your college: *NIL*

Cisco Networking Academy Program

1. Is the top management aware of the program: *YES*

2. Do you intend integrating this course in your curriculum or offer as an elective: *As an elective*

3. Are they aware that the program is based on non profit basis (cost recovery only) : *Yes*

4. How will students be apprised of the program: *Through our cisco certified Instructors.*

5. To which branches/streams will this course be offered : *CSE, IT, MCA, ECE and EEE*

6. What are your key objectives in joining the program?

   ➢ *To mould our students to meet the corporate expectation & place them in reputed companies based on their technical skills.*

   ➢ *Resolving issues related to trouble shooting.*

   ➢ *To acquire the privileged name "CISCO Nodal Center".*

7. Which course is your institute going to opt for (check in table below)

INTRODUCTION

The technology industry has been moving towards open standards and cloud computing is the next logical step. *A Survey says that "By 2012, 80 percent of Fortune 1000 companies will pay for some cloud computing service, and 30 percent of them will pay for cloud computing infrastructure".* Cloud Computing means outsourcing the computing requirements and receiving the services through the Internet connection. Cloud computing has the potential to revolutionize the way we build and deploy applications. This course provides an insight into the Cloud computing environment, the infrastructure, Security aspects etc., which will help the academicians to know about the technology associated with cloud computing.

COURSE CONTENTS

- Journey to the Cloud
- Classic Data Center (CDC)
- Virtualized Data Center (VDC)-Compute
- Virtualized Data Center -Storage
- Virtualized Data Center - Networking
- Virtualized Data Center – Desktop and Application
- Business Continuity in VDC
- Cloud Computing Primer
- Cloud Infrastructure and Management
- Cloud Security
- Cloud Migration Considerations

ABOUT THE COLLEGE

Mohamed Sathak Engineering College (MSEC) was established in Kilakarai in 1984. It is worth to note that MSEC was the very first Self – Financing Engineering College established in the state of Tamilnadu.

We are the pioneers in the field of Engineering possessing rare courses from like Aeronautical Engineering, Chemical Engineering, Architecture, Marine Engineering. So far more than 15000 UG & 2500 PG students got graduated from our institute and are placed well off in National & International Levels.

The College has more than normal facilities expected of an Engineering College of high standard. Classrooms are spacious and airy. All the labs are well equipped. Computer laboratories are well organized with Internet facilities available to each and every student. Language lab is established with all modern equipment enabling students improve their communication skills.

A computerized Library with well-stacked volumes of books and journals, quenches the intellectual thirst of the students. Vast playgrounds and a multi-station gymnasium keep the students fit and healthy. Separate hostels are there for boys and girls.

CLOUD INFRASTRUCTURE AND SERVICES COURSE

Semester: VI/IV

Branch: ECE, CSE, IT/MCA

Course Date: 01.02.2016 to 10.02.2016

Objective of Course: Gain the skills needed to make informed decisions on technologies, processes, and mechanisms required to build a cloud infrastructures and it introduces the cloud computing reference model which includes five fundamental layers and three cross layer functions.

Course Syllabus:

- Journey to the Cloud
- Classic Data Center (CDC)
- Virtualized Data Center (VDC)-Compute
- Virtualized Data Center -Storage
- Virtualized Data Center - Networking
- Virtualized Data Center – Desktop and Application
- Business Continuity in VDC
- Cloud Computing Primer
- Cloud Infrastructure and Management
- Cloud Security
- Cloud Migration Considerations

Mohamed Sathak Engineering College (MSEC) was established in Kilakarai in 1984. It is worth to note that MSEC was the very first Self – Financing Engineering College established in the state of Tamilnadu.

We are the pioneers in the field of Engineering possessing rare courses from like Aeronautical Engineering, Chemical Engineering, Architecture, Marine Engineering. So far more than 15000 UG & 2500 PG students got graduated from our institute and are placed well off in National & International Levels.

The College has more than normal facilities expected of an Engineering College of high standard. Classrooms are spacious and airy. All the labs are well equipped. Computer laboratories are well organized with Internet facilities available to each and every student. Language lab is established with all modern equipment enabling students improve their communication skills. A computerized Library with well-stacked volumes of books and journals, quenches the intellectual thirst of the students. Vast playgrounds and a multi-station gymnasium keep the students fit and healthy. Separate hostels are there for boys and girls.

Objective: To train students in the area of software development in order to build scalable and flexible applications in an industry standard way.

Objective of the Course

Gain the knowledge about Mobile Application Development Platform and about the basic components needed for Mobile App development and also learn the basic and important design concepts and issue of development of mobile applications. The course includes the study of android components Activity , Intents, different user interfaces. Also about the shared database concepts like content providers. It also covers advanced topics like location based services , multimedia etc. This enables students to write applications for the platforms used , simulate them and test them on the mobile hardware where possible.

Course Outline

- Introduction to Android
- Java for Android
- Activities and Intents
- User Interface
- Services and Broadcast Receivers
- Persistent Data Storage
- GPS and Connectivity
- Multimedia
- Testing and Publishing
- Intel XDK

Venue : PG SEMINAR HALL

Duration : 150 Hours

Course Co-ordinator : Mr.S.Lakshmi Kantha Bharathi

Trainers : 1.Dr.I.Sheik Arafat
2.Mr.K.M.Alaaudeen

About the College

Mohamed Sathak Engineering College (MSEC), Kilakarai, is one of the premier and first self financing engineering colleges in Tamilnadu, established in the year of 1984, with the mission of importing quality technical education to rural students. Our college offers 10 UG Courses and 9 PG Courses.

About The ICTACT

ICT Academy is an initiative of the Government of India in collaboration with the state Governments and Industries. ICT Academy is a not-for-profit society, the first of its kind pioneer venture under the Public-Private-Partnership (PPP) model that endeavours to train the higher education teachers and students thereby exercises on developing the next generation teachers and industry ready students.ICT Academy was started to meet the skill requirements of the industry and generate more employment especially in tier 2 and 3 towns, the rural parts of the country. The organization was formed with representations from the State Government of Tamil Nadu, leading companies in the ICT industry and National Association of Software Services Companies (NASSCOM) in India..

ABOUT THE DEPARTMENT

The Department of Mechanical Engineering was started in the year 1984. It is one of the well established departments in the institute with strong well built facilities and excellent library. The department has Dynamics lab with all the facilities aside Thermal engg.lab and Manufacturing technology lab etc.

INTRODUCTION

This workshop will provide a comprehensive training in the intelligent and effective use off simulation software. It will also emphasize proper selection of thermodynamic models in simulator and provide pertinent background behind the simulation of various operation. It will demonstrate the steady state and dynamic simulation of fluid flow along with its applications.

VALUE ADDED COURSE SYLLABUS

- **Fluid Dynamics/Physical Modelling**

    Initial conditions, Boundary conditions, Introduction to turbulence, Turbulence modelling essentials.

- **Numerical Solution / Computing**

    Numerical solution overview, Parallel running, Discretization introduction, Discretization of diffusion.

- **Geometry and Meshing**

    Geometry generation, SnappyHexMesh introduction, snappyHexMesh enhancements, snappyHexMesh refinement.

- **Data Analysis**

Visualization introduction, Data formats, Graphs and surfaces, Objective measures,

ABOUT THE COLLEGE

Mohamed Sathak Engineering College (MSEC) was established in Kilakarai in 1984. It is worth to note that MSEC was the very first Self -Financing Engineering College established in the state of Tamil Nadu.

We are the pioneers in the field of Engineering possessing rare courses from like Chemical Engineering, Aeronautical Engineering, Architecture, Marine Engineering. So far more than 15000 UG & 2500 PG students got graduated from our institute and are placed well off in National & International Levels.

The College has more than normal facilities expected of an Engineering College of high standard. Classrooms are spacious and airy. All the labs are well equipped. Computer laboratories are well organized with Internet facilities available to each and every student.

A computerized Library with well-stacked volumes of books and journals, quenches the intellectual thirst of the students. Vast playgrounds and a multistation gymnasium keep the students fit and healthy. Separate hostels are there for boys and girls.

DURATION:
40 hours @4 hrs daily

PARTICIPANTS: IV-year Mechanical engineering students.

Branch: B.E. – Mechanical Engineering

Year & Semester: IV& VII

Course Date: 15.07.2015 to 25.07.2015

Objective of Course: It is an open source/free CFD (Computational Fluid Dynamics) software available for solving and analyzing problems and to create a real world fluid flow movie. Open source equivalent to FLUENT. It can create custom objects, such as boundary conditions or turbulence models.

Subject Course Syllabus:

- **Fluid Dynamics/Physical Modelling**

    Initial conditions, Boundary conditions, Introduction to turbulence, Turbulence modelling essentials.

- **Numerical Solution / Computing**

    Numerical solution overview, Parallel running, Discretization introduction, Discretization of diffusion.

ABOUT THE DEPARTMENT

The Department of Mechanical Engineering was started in the year 1984. It is one of the well established departments in the institute with strong well built facilities and excellent library. The department has Dynamics lab with all the facilities aside Thermal engg.lab and Manufacturing technology lab etc.

COURSE SYLLABUS

1.Introduction   2.Tables and Relationships
3.Create a simple form
4.Modify a simple form
5.Build a complex form with form controls
6.Add List Box form control to a form
7.Add Push Button to a form
8.Enter and update data in a form
9.Create queries using Query Wizard
10.Create queries using Design View
11.Create reports
12.Modify a Report
13.Create tables
14.Create Subforms
15.Database Maintenance.

ABOUT THE COLLEGE

Mohamed Sathak Engineering College (MSEC) was established in Kilakarai in 1984. It is worth to note that MSEC was the very first Self -Financing Engineering College established in the state of Tamil Nadu.

We are the pioneers in the field of Engineering possessing rare courses from like Chemical Engineering, Aeronautical Engineering, Architecture, Marine Engineering. So far more than 15000 UG & 2500 PG students got graduated from our institute and are placed well off in National & International Levels.

The College has more than normal facilities expected of an Engineering College of high standard. Classrooms are spacious and airy. All the labs are well equipped. Computer laboratories are well organized with Internet facilities available to each and every student.

A computerized Library with well-stacked volumes of books and journals, quenches the intellectual thirst of the students. Vast playgrounds and a multistation gymnasium keep the students fit and healthy. Separate hostels are there for boys and girls.

DURATION:
40 hours @4 hrs daily

PARTICIPANTS:
IV YEAR AERONAUTICAL, CIVIL, CHEMICAL, MARINE
MECHANICAL Engineering Students, MSEC.

Outline: Indexes Table Filter SQL Command window How to open index window Firing query of mysql insert,update,delete Firing query of mysql create table,drop table and alter statem..

20. Database Design Purpose OrganizeTables

Foss : *LibreOffice Suite Base - English*

Outline: What is Database Design Process of database design Dividing the information into tables. Determining the purpose of our database Finding and organizing the information required.
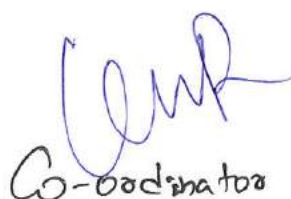

SYLLABUS FOR LATEX

Objectives: To create understanding of the LaTeX   (CREDIT COURSE – 15 hours)

➢ Installation of the software LaTeX

➢ Understanding Latex compilation Basic Syntex,

➢ Writing equations,

➢ Matrix,

➢ Tables Page Layout – Titles,

➢ Abstract Chapters, Sections, Referrences, Equation references, citation.

➢ List making environments Table of contents, Generating new commands, Figure handling numbering, List of figures, List of tables, Generating index.

➢ Packages: Geometry, Hyperref, amsmath, amssymb, algorithms, algorithmic graphic, color, tilez listing.

➢ Classes: article, book, report, beamer, slides. IEEtran.

➢ Applications to: Writing Resumae Writing question paper Writing articles/ research papers Presentation using beamer.

➢ Theory, Practical and exercises based on the above concepts.

INTRODUCTION

The technology industry has been moving towards open standards and cloud computing is the next logical step. *A Survey says that "By 2012, 80 percent of Fortune 1000 companies will pay for some cloud computing service, and 30 percent of them will pay for cloud computing infrastructure".*

Cloud Computing means outsourcing the computing requirements and receiving the services through the Internet connection. Cloud computing has the potential to revolutionize the way we build and deploy applications. This course provides an insight into the Cloud computing environment, the infrastructure, Security aspects etc., which will help the academicians to know about the technology associated with cloud computing.

COURSE CONTENTS

- Journey to the Networks
- LAN switching technologies
- Routing Technologies
- Network Technologies
- LAN Technologies
- WAN Technologies
- Infrastructure Services
- Infrastructure Security
- Infrastructure Management
- Network Security
- Security Considerations

ABOUT THE COLLEGE

Mohamed Sathak Engineering College (MSEC) was established in Kilakarai in 1984. It is worth to note that MSEC was the very first Self – Financing Engineering College established in the state of Tamilnadu.

We are the pioneers in the field of Engineering possessing rare courses from like Aeronautical Engineering, Chemical Engineering, Architecture, Marine Engineering. So far more than 15000 UG & 2500 PG students got graduated from our institute and are placed well off in National & International Levels.

The College has more than normal facilities expected of an Engineering College of high standard. Classrooms are spacious and airy. All the labs are well equipped. Computer laboratories are well organized with Internet facilities available to each and every student. Language lab is established with all modern equipment enabling students improve their communication skills.

A computerized Library with well-stacked volumes of books and journals, quenches the intellectual thirst of the students. Vast playgrounds and a multi-station gymnasium keep the students fit and healthy. Separate hostels are there for boys and girls.

INTRODUCTION

The technology industry has been moving towards open standards and cloud computing is the next logical step. *A Survey says that "By 2012, 80 percent of Fortune 1000 companies will pay for some cloud computing service, and 30 percent of them will pay for cloud computing infrastructure".* Cloud Computing means outsourcing the computing requirements and receiving the services through the Internet connection. Cloud computing has the potential to revolutionize the way we build and deploy applications. This course provides an insight into the Cloud computing environment, the infrastructure, Security aspects etc., which will help the academicians to know about the technology associated with cloud computing.

COURSE CONTENTS

- Journey to the Cloud
- Classic Data Center (CDC)
- Virtualized Data Center (VDC)-Compute
- Virtualized Data Center -Storage
- Virtualized Data Center - Networking
- Virtualized Data Center – Desktop and Application
- Business Continuity in VDC
- Cloud Computing Primer
- Cloud Infrastructure and Management
- Cloud Security
- Cloud Migration Considerations

MOHAMED SATHAK ENGINEERING COLLEGE

ABOUT THE COLLEGE

Mohamed Sathak Engineering College (MSEC) was established in Kilakarai in 1984. It is worth to note that MSEC was the very first Self – Financing Engineering College established in the state of Tamilnadu.

We are the pioneers in the field of Engineering possessing rare courses from like Aeronautical Engineering, Chemical Engineering, Architecture, Marine Engineering. So far more than 15000 UG & 2500 PG students got graduated from our institute and are placed well off in National & International Levels.

The College has more than normal facilities expected of an Engineering College of high standard. Classrooms are spacious and airy. All the labs are well equipped. Computer laboratories are well organized with Internet facilities available to each and every student. Language lab is established with all modern equipment enabling students improve their communication skills.

A computerized library with well-stacked volumes of books and journals, quenches the intellectual thirst of the students. Vast playgrounds and a multi-station gymnasium keep the students fit and healthy. Separate hostels are there for boys and girls.

DURATION

40 hours @4 hrs daily

Semester: VI/IV

Branch: ECE, CSE, IT/MCA

Course Date: 06.02.2017 to 15.02.2017

Objective of Course: Gain the skills needed to make informed decisions on technologies, processes, and mechanisms required to build a cloud infrastructures and it introduces the cloud computing reference model which includes five fundamental layers and three cross layer functions.

Course Syllabus:

- Journey to the Cloud
- Classic Data Center (CDC)
- Virtualized Data Center (VDC)-Compute
- Virtualized Data Center -Storage
- Virtualized Data Center - Networking
- Virtualized Data Center – Desktop and Application
- Business Continuity in VDC

Mohamed Sathak Engineering College (MSEC) was established in Kilakarai in 1984. It is worth to note that MSEC was the very first Self – Financing Engineering College established in the state of Tamilnadu.

We are the pioneers in the field of Engineering possessing rare courses from like Aeronautical Engineering, Chemical Engineering, Architecture, Marine Engineering. So far more than 15000 UG & 2500 PG students got graduated from our institute and are placed well off in National & International Levels.

The College has more than normal facilities expected of an Engineering College of high standard. Classrooms are spacious and airy. All the labs are well equipped. Computer laboratories are well organized with Internet facilities available to each and every student. Language lab is established with all modern equipment enabling students improve their communication skills. A computerized Library with well-stacked volumes of books and journals, quenches the intellectual thirst of the students. Vast playgrounds and a multi-station gymnasium keep the students fit and healthy. Separate hostels are there for boys and girls.

Objective: To train students in the area of software development in order to build scalable and flexible applications in an industry standard way.

Duration : 150 Hours

Sem : IV,VIII

Objective of Course:

Gain the knowledge about Mobile Application Development Platform and about the basic components needed for Mobile App development and also learn the basic and important design concepts and issue of development of mobile applications. The course includes the study of android components Activity , Intents, different user interfaces. Also about the shared database concepts like content providers. It also covers advanced topics like location based services , multimedia etc. This enables students to write applications for the platforms used , simulate them and test them on the mobile hardware where possible.

ABOUT THE COLLEGE

Mohamed Sathak Engineering College (MSEC) was established in Kilakarai in 1984. It is worth to note that MSEC was the very first Self -Financing Engineering College established in the state of Tamil Nadu.

We are the pioneers in the field of Engineering possessing rare courses from like Chemical Engineering, Aeronautical Engineering, Architecture, Marine Engineering So far more than 15000 UG & 2500 PG students got graduated from our institute and are placed well off in National & International Levels.

The College has more than normal facilities expected of an Engineering College of high standard. Classrooms are spacious and airy. All the labs are well equipped Computer laboratories are well organized with Internet facilities available to each and every student.

A computerized library with well-stacked volumes of books and journals, quenches the intellectual thirst of the students. Vast playgrounds and a multistation gymnasium keep the students fit and healthy. Separate hostels are there for boys and girls.

**DURATION:**

40 hours @4 hrs daily

PARTICIPANTS:

IV YEAR AERONAUTICAL, CIVIL, CHEMICAL,MARINE & MECHANICAL Engineering Students. MSEC-KAI-623806.

ABOUT THE DEPARTMENT

The Department of Mechanical Engineering was started in the year 1984. It is one of the well established departments in the institute with strong well built facilities and excellent library. The department has Dynamics lab with all the facilities aside Thermal engg.lab and Manufacturing technology lab etc.

ABOUT THE DEPARTMENT

The Department of Mechanical Engineering was started in the year 1984. It is one of the well established departments in the institute with strong well built facilities and excellent library. The department has Dynamics lab with all the facilities aside Thermal engg.lab and Manufacturing technology lab etc.

INTRODUCTION

This workshop will provide a comprehensive training in the intelligent and effective use off simulation software. It will also emphasize proper selection of thermodynamic models in simulator and provide pertinent background behind the simulation of various operation. It will demonstrate the steady state and dynamic simulation of fluid flow along with its applications.

VALUE ADDED COURSE SYLLABUS

- **Fluid Dynamics/Physical Modelling**
  Initial conditions, Boundary conditions, Introduction to turbulence, Turbulence modelling essentials.

- **Numerical Solution / Computing**
  Numerical solution overview, Parallel running, Discretization introduction, Discretization of diffusion.

- **Geometry and Meshing**
  Geometry generation, SnappyHexMesh introduction, snappyHexMesh enhancements, snappyHexMesh refinement.

- **Data Analysis**

Visualization introduction, Data formats, Graphs and surfaces, Objective measures,

ABOUT THE COLLEGE

Mohamed Sathak Engineering College (MSEC) was established in Kilakarai in 1984. It is worth to note that MSEC was the very first Self -Financing Engineering College established in the state of Tamil Nadu.

We are the pioneers in the field of Engineering possessing rare courses from like Chemical Engineering, Aeronautical Engineering, Architecture, Marine Engineering. So far more than 15000 UG & 2500 PG students got graduated from our institute and are placed well off in National & International Levels.

The College has more than normal facilities expected of an Engineering College of high standard. Classrooms are spacious and airy. All the labs are well equipped. Computer laboratories are well organized with Internet facilities available to each and every student.

A computerized Library with well-stacked volumes of books and journals, quenches the intellectual thirst of the students. Vast playgrounds and a multistation gymnasium keep the students fit and healthy. Separate hostels are there for boys and girls.

DURATION:
40 hours @4 hrs daily

PARTICIPANTS: IV-year Mechanical engineering students.

Branch: B.E. – Mechanical Engineering

Year & Semester: IV & VII

Course Date: 18.07.2016 to 28.07.201 6

Objective of Course: It is an open source/free CFD (Computational Fluid Dynamics) software available for solving and analyzing problems and to create a real world fluid flow movie. Open source equivalent to FLUENT. It can create custom objects, such as boundary conditions or turbulence models.

Subject Course Syllabus:

- **Fluid Dynamics/Physical Modelling**

  Initial conditions, Boundary conditions, Introduction to turbulence, Turbulence modelling essentials.

- **Numerical Solution / Computing**

  Numerical solution overview, Parallel running, Discretization introduction, Discretization of diffusion.

- **Geometry and Meshing**

  Geometry generation, SnappyHexMesh introduction, snappyHexMesh enhancements, snappyHexMesh refinement.

- **Data Analysis**

  Visualization introduction, Data formats, Graphs and surfaces, Objective measures,

ABOUT THE DEPARTMENT

The Department of Mechanical Engineering was started in the year 1984. It is one of the well established departments in the institute with strong well built facilities and excellent library. The department has Dynamics lab with all the facilities aside Thermal engg.lab and Manufacturing technology lab etc.

INTRODUCTION

This workshop will provide a comprehensive training in the intelligent and effective use off simulation software. It will also emphasize proper selection of thermodynamic models in simulator and provide pertinent background behind the simulation of various operation. It will demonstrate the steady state and dynamic simulation of fluid flow along with its applications.

VALUE ADDED COURSE SYLLABUS

■ **Fluid Dynamics/Physical Modelling**
Initial conditions, Boundary conditions, Introduction to turbulence, Turbulence modelling essentials.

■ **Numerical Solution / Computing**
Numerical solution overview, Parallel running, Discretization introduction, Discretization of diffusion.

■ **Geometry and Meshing**
Geometry generation, SnappyHexMesh introduction, snappyHexMesh enhancements, snappyHexMesh refinement.

■ **Data Analysis**

Visualization introduction, Data formats, Graphs and surfaces, Objective measures,

ABOUT THE COLLEGE

Mohamed Sathak Engineering College (MSEC) was established in Kilakarai in 1984. It is worth to note that MSEC was the very first Self -Financing Engineering College established in the state of Tamil Nadu.

We are the pioneers in the field of Engineering possessing rare courses from like Chemical Engineering, Aeronautical Engineering, Marine Architecture, Engineering. So far more than 15000 UG & 2500 PG students got graduated from our institute and are placed well off in National & International Levels.

The College has more than normal facilities expected of an Engineering College of high standard. Classrooms are spacious and airy. All the labs are well equipped. Computer laboratories are well organized with Internet facilities available to each and every student.

A computerized Library with well-stacked volumes of books and journals, quenches the intellectual thirst of the students. Vast playgrounds and a multistation gymnasium keep the students fit and healthy. Separate hostels are there for boys and girls.

DURATION:
40 hours @4 hrs daily

PARTICIPANTS: IV-year Mechanical engineering students.

Academic Year 2017 - 2018

Date: 12.06.2017

OpenFOAM (Spoken Tutorial/IITB)

Branch: B.E – Mechanical Engineering

Year & Semester: IV & VII

Course Date: 14.08.2017 to 26.08.2017

Objective of Course: It is an open source/free CFD (Computational Fluid Dynamics) software available for solving and analyzing problems and to create a real world fluid flow movie. Open source equivalent to FLUENT. It can create custom objects, such as boundary conditions or turbulence models.

Subject Course Syllabus:

- **Fluid Dynamics/Physical Modelling**

    Initial conditions, Boundary conditions, Introduction to turbulence, Turbulence modelling essentials.

- **Numerical Solution / Computing**

    Numerical solution overview, Parallel running, Discretization introduction, Discretization of diffusion.

- **Geometry and Meshing**

    Geometry generation, SnappyHexMesh introduction, snappyHexMesh enhancements, snappyHexMesh refinement.

- **Data Analysis**

    Visualization introduction, Data formats, Graphs and surfaces, Objective measures.

INTRODUCTION

The technology industry has been moving towards open standards and cloud computing is the next logical step. A Survey says that *"By 2012, 80 percent of Fortune 1000 companies will pay for some cloud computing service, and 30 percent of them will pay for cloud computing infrastructure"*.

Cloud Computing means outsourcing the computing requirements and receiving the services through the Internet connection. Cloud computing has the potential to revolutionize the way we build and deploy applications. This course provides an insight into the Cloud computing environment, the infrastructure, Security aspects etc., which will help the academicians to know about the technology associated with cloud computing.

COURSE CONTENTS

- Journey to the Networks
- LAN switching technologies
- Routing Technologies
- Network Technologies
- LAN Technologies
- WAN Technologies
- Infrastructure Services
- Infrastructure Security
- Infrastructure Management
- Network Security
- Security Considerations

ABOUT THE COLLEGE

Mohamed Sathak Engineering College (MSEC) was established in Kilakarai in 1984. It is worth to note that MSEC was the very first Self – Financing Engineering College established in the state of Tamilnadu.

We are the pioneers in the field of Engineering possessing rare courses from like Aeronautical Engineering, Chemical Engineering, Architecture, Marine Engineering. So far more than 15000 UG & 2500 PG students got graduated from our institute and are placed well off in National & International Levels.

The College has more than normal facilities expected of an Engineering College of high standard. Classrooms are spacious and airy. All the labs are well equipped. Computer laboratories are well organized with Internet facilities available to each and every student. Language lab is established with all modern equipment enabling students improve their communication skills.

A computerized Library with well-stacked volumes of books and journals, quenches the intellectual thirst of the students. Vast playgrounds and a multi-station gymnasium keep the students fit and healthy. Separate hostels are there for boys and girls.

During the Cisco Networking Academy® course, administered by the undersigned instructor, the student was able to proficiently:

- Understand and describe the devices and services used to support communications in data networks and the Internet

- Understand and describe the role of protocol layers in data networks

- Understand and describe the importance of addressing and naming schemes at various layers of data networks in IPv4 and IPv6 environments

- Design, calculate, and apply subnet masks and addresses to fulfill given requirements in IPv4 and IPv6 networks

- Explain fundamental Ethernet concepts such as media, services, and operations

- Build a simple Ethernet network using routers and switches

- Use Cisco command-line interface (CLI) commands to perform basic router and switch configurations

- Utilize common network utilities to verify small network operations and analyze data tra

INTRODUCTION

The technology industry has been moving towards open standards and cloud computing is the next logical step. A Survey says that *"By 2012, 80 percent of Fortune 1000 companies will pay for some cloud computing service, and 30 percent of them will pay for cloud computing infrastructure".* Cloud Computing means outsourcing the computing requirements and receiving the services through the Internet connection. Cloud computing has the potential to revolutionize the way we build and deploy applications. This course provides an insight into the Cloud computing environment, the infrastructure, Security aspects etc., which will help the academicians to know about the technology associated with cloud computing.

COURSE CONTENTS

- Journey to the Cloud
- Classic Data Center (CDC)
- Virtualized Data Center (VDC)-Compute
- Virtualized Data Center -Storage
- Virtualized Data Center - Networking
- Virtualized Data Center – Desktop and Application
- Business Continuity in VDC
- Cloud Computing Primer
- Cloud Infrastructure and Management
- Cloud Security
- Cloud Migration Considerations

ABOUT THE COLLEGE

Mohamed Sathak Engineering College (MSEC) was established in Kilakarai in 1984. It is worth to note that MSEC was the very first Self – Financing Engineering College established in the state of Tamilnadu.

We are the pioneers in the field of Engineering possessing rare courses from like Aeronautical Engineering, Chemical Engineering, Architecture, Marine Engineering. So far more than 15000 UG & 2500 PG students got graduated from our institute and are placed well off in National & International Levels.

The College has more than normal facilities expected of an Engineering College of high standard. Classrooms are spacious and airy. All the labs are well equipped. Computer laboratories are well organized with Internet facilities available to each and every student. Language lab is established with all modern equipment enabling students improve their communication skills.

A computerized library with well-stacked volumes of books and journals, quenches the intellectual thirst of the students. Vast playgrounds and a multi-station gymnasium keep the students fit and healthy. Separate hostels are there for boys and girls.

Mohamed Sathak Engineering College (MSEC) was established in Kilakarai in 1984. It is worth to note that MSEC was the very first Self – Financing Engineering College established in the state of Tamilnadu.

We are the pioneers in the field of Engineering possessing rare courses from like Aeronautical Engineering, Chemical Engineering, Architecture, Marine Engineering. So far more than 15000 UG & 2500 PG students got graduated from our institute and are placed well off in National & International Levels.

The College has more than normal facilities expected of an Engineering College of high standard. Classrooms are spacious and airy. All the labs are well equipped. Computer laboratories are well organized with Internet facilities available to each and every student. Language lab is established with all modern equipment enabling students improve their communication skills. A computerized Library with well-stacked volumes of books and journals, quenches the intellectual thirst of the students. Vast playgrounds and a multi-station gymnasium keep the students fit and healthy. Separate hostels are there for boys and girls.

Objective: To train students in the area of software development in order to build scalable and flexible applications in an industry standard way.

SPOKEN TUTORIAL – JAVA

Semester: VII

Branch: ECE, CSE, IT, MCA

Course Date: 12.06.2017 to 13.09.2017

Objective of Course: Develop codes in java implementing object oriented concepts .Utilize the advanced class features including inheritance , polymorphism, overloading, overriding, interfacing, abstract classes and more to develop efficient and reusable codes. Create programs using generic collections.

Syllabus:

- Overview of Programming in JAVA
- Data Types , Variables ,Operators
- Control statement, Iteration Statement
- Simple Programs using JAVA
- Method Overloading and Overriding
- Abstract Class and Methods
- Exceptions
- Multithreading , Java thread model
- Synchronization
- Collection Framework
- Utility Classes
- JSP
- JDBC
