Respected Sir,

Sub: Seeking Permission To Conduct The Workshop on " RECENT TRENDS IN FEM TOOL PACKAGE" -Reg

We the aeronautical department of mohamed sathak engineering college are planning to conduct a one day workshop on the topic " RECENT TRENDS IN FEM TOOL PACKAGE" which will be presented by Mr. Mohamed Ilyas. The manager, MecAvia private Ltd, chennai. We got the permission from the IPR cell to conduct this programme as grand, So kindly grant us permission to conduct this in a very well manner.

Thanking You,

Yours faithfully,

The workshop organizer. (C.RAMARAJ, AP/AERO)

SUMMARY OF PROGRAM:

One day seminar on "**RECENT TRENDS IN FEM TOOL PACKAGE**" was organised by Department of Aeronautical Engineering jointly with MecAvia pvt Ltd on **24.03.2014**. key note speakers are Mr. Mohamed Iliyas, The manager, MecAvia private ltd, chennai.

. Rasheed Khan, Head of the department from Aero department delivered welcome address. Felicitation address given by the principal The topics discussed in this seminar are recent trends in Finite element methods and how its useful in industry sectors with what are the factors to be considered in selection of tool package in Finite element analysis .

Mr. Iliyas, Manager of Mec avia pvt Ltd, chennai delivered the special clarification for the student about the latest innovation projects handled in Mec avia and he shared his experience with the students. He insisted them to learn the basic concept of the FEM which will help them to get into different companies on future. 79 students from Aero department attended this seminar. Interaction session was conducted at the end of the seminar. The entire session was much more informative to the students and the students will be able to assess their knowledge on FEM. They will also apply this knowledge gained in forth coming final year project and placements.

" RECENT TRENDS IN FEM TOOL PACKAGE "

Students Feedback Analysis Report

Year: III & IV year Aeronautical students

Date: 24th March 2014, 10.00 A.M.

Venue: ECE Seminar Hall.

Number of students participated: 61

Feedback by Students:

"Workshop on RECENT TRENDS IN FEM TOOL PACKAGE" was conducted for III&IV year students on 24.03.2014. The feedback received from students following are the observations made:

- Program/course content – **Very Good**
- Rate the lecture sessions / presentations – **Very Good**
- Rate interactive sessions – **Good**
- Usefulness of program in improving your skills – **Good**
- Improved your knowledge / skills after attending the program – **Yes**
- Rate the timely communication in all aspects of the program – **Very Good**
- Rate the overall arrangement and conduct of the program/ course – **Good**
- Contents discussed were relevant to the topics planned – **Yes**
- Would you like to have another program by the same Resource person – **Yes**

DEPARTMENT OF AERONAUTICAL ENGINEERING

SUMMARY OF PROGRAM:

The department of Aeronautical and Mechanical engineering organized One day workshop on "**MODERN TRENDS IN FIELD OF FEM**". The programme was started with the prayer song. Mr.N.I.Haroon Rashid, head of aeronautical department gave a brief introduction about the chief guest, **Dr.R.Azad ahamed, Head of the department, Department of aeronautical engineering, KCG College of technology, Chennai.**

The chief guest inaugurated the workshop and delivered the role and importance of finite element method for application in modern trends and motivated the students. Then he explains about the FEM and Application with PowerPoint presentation. he clearly explains those concepts and gave some ideas to FEM. Students are eagerly interacted with the expert and gained more knowledge about FEM.

He concluded the session by giving feedbacks about the students. The entire session on the whole was much informative to the students will able of their FEM. They will also apply this knowledge gained in final year project and placements.

"MODERN TRENDS IN FIELD OF FEM"

Students Feedback Analysis Report

Year: IV year Aeronautical and Mechanical Engineering students

Date: 19th March 2016, 10.00 A.M.

Venue: ECE Seminar Hall.

Number of students participated: 128

Feedback by Students:

"Workshop on MODERN TRENDS IN FIELD OF FEM" was conducted for the IV year Aeronautical and Mechanical Engineering students on 19.03.2016. The feedback is received from students following are the observations made:

- Program/course content – Very Good
- Rate the lecture sessions / presentations – Good
- Rate interactive sessions – Good
- Usefulness of program in improving your skills – Good
- Improved your knowledge / skills after attending the program – Yes
- Rate the timely communication in all aspects of the program – Good
- Rate the overall arrangement and conduct of the program/ course – Good
- Contents discussed were relevant to the topics planned – Yes
- Would you like to have another program by the same Resource person – Yes

Respected Sir,

Sub: Proposal for Workshop on “**LATEST INNOVATION IN SPACE TECHNOLOGY**”-

Department of Aeronautical Engineering - reg.

We the aeronautical department of Mohamed Sathak Engineering College has planning to conduct a one day workshop on " **LATEST INNOVATION IN SPACE TECHNOLOGY** ". In this workshop, latest technology and what are the project handled by ISRO like PSLV, GSLV are going to be explained by scientist. Really it will be a useful programme to our students and gets deep knowledge about space activities. I have prepared and expecting the budget of **Rs.3000** for conducting this seminar. So kindly, provide us the funding facility to do in great manner.

Objectives of the workshop

- To enlighten the satellite launching methods with a recent technology
- To create an awareness about job career in government sectors
- To provide the knowledge on the students of the satellites
- To provide a career development idea for the students.

Participants: 79 Students + 7 Faculties

Expenditure

We spend the sum of **Rs.3000** (Three thousand) only for conducting this workshop. This includes

1. Transportation charge	=	Rs. 700
2. Refreshment to Chief Guest	=	Rs. 700
3. banner	=	Rs. 1600

Thanking You,

27/02/18

Respected Sir,

Sub: Seeking Permission To Conduct The "**LATEST INNOVATION IN SPACE TECHNOLOGY**"-Reg

We the aeronautical department of mohamed sathak engineering college are planning to conduct a one day workshop on the topic "**LATEST INNOVATION IN SPACE TECHNOLOGY**" which will be presented by

(i) Shri.B.Siva kumar, scientist/ Engineer-SF.

(ii) Shri.K.Velmurugan, Scientist/Engineer-SE. We got the permission from the IPR cell to conduct this programme . So kindly grant us permission to conduct this in a very well manner.

Thanking You,

Yours faithfully,
Workshop organizer (C.RAMARAJ , AP/AERO)

SUMMARY OF PROGRAM:

One day seminar on "**LATEST INNOVATION IN SPACE TECHNOLOGY**" was organised by Department of Aeronautical Engineering jointly with Isro department **08.03.2018**. This seminar was conducted by Isro propulsion complex from mahendrahir, Tirunelveli. key note speakers are

1. Shri B.Siva Kumar, Scientist/Engineer-SF, Earth Storable & Isrosene, Analytical Lab. ISRO.

2. Shri. K.Vel Murugan, Scientist/Engineer-SE, Earth Storable Stages Assembly & Integrated Division, ISRO.

3. Shri. A Bala Sundaram, Scientist/Engineer-SE, Integrated Cryogenic Engine & Stage Test Facility, ISRO Shri.B.Siva kumar, Shri.K.Velmurugan & Shri .A. Bala sundaram.

Principal inaugurated this seminar. Shri.B.Siva kumar from Isro propulsion complex, delivered lectures and hands on new trends to the students. The topics discussed in this seminar are job offer in Research sector in Isro,

Shri.K.Velmurugan delivered the special clarification for the student about the latest innovation projects handled in Isro. he shared his experience with the students and insisted them to learn the basic concept of the subjects which will help them to get into different companies.79 students from our department attended this seminar. Interaction session was conducted at the end of the seminar.

" LATEST INNOVATION IN SPACE TECHNOLOGY"

Students Feedback Analysis Report

Year: II,III,& IV year Aeronautical Engineering students

Date: 08-03-2018, 10.00 A.M

Venue: ECE Seminar Hall.

Number of students participated: 78

Feedback by Students:

“LATEST INNOVATION IN SPACE TECHNOLOGY” was conducted for the II,III & IV year Aeronautical engineering students on 08.03.2018. The feedback received from students following
are the observations made:

- ☐ The workshop was well structured and organized.
- ☐ It also helped us to understand the importance of our research work.
- ☐ All the sessions are useful and benefit.
- ☐ Some participants are requested conduct these kind of workshop in every year.

Submitted to the Head-IPR:

Sir,

On behalf of our Architecture department Planned to conduct one day workshop on 25 November 2016. We have submitted the budget for your kind perusal. Kindly give the permission to conduct above said program.

Details of the Budget

sl.no.	Bill/Purpose	Amount(Rs.)
1.	Invitation, Poster, Brochure & Banner	5,000/-
2.	Chief Guest-Transportation, Accommodation & Memento	7,000/-
3.	Food	5,000/-
4.	Prizes & Certificates	3,000/-
5.	Miscellaneous	2,000/-
Total Amount		22,000/-

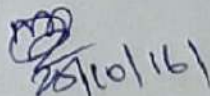

Kindly do the needful as earlier as possible

Thanking You

Yours Faithfully,

Summary Report of the Workshop

OBJECTIVES

- ❖ To acquire the knowledge of Artwork and Design Ideas.
- ❖ To aware the importance of Artwork

PARTICIPANTS:

The Workshop had 96 students, faculty members from Architecture department & other department faculty members.

INAUGURATION:

The inaugural function was started with the "qraath"(The Praise of Almighty). Then the student organizer Balaji N (III year student) welcomed all the dignities.

The Principal inaugurated with his valuable thoughts about the Conservation. The HOD, Dr.G.Muthu Shoba Mohan, introduced & governed the chief guests.

The Chief guest of the day are Artist Vineesh Vijayan Artist cum Sculpturist in Film Industry. They gave a brief introduction & importance of Art ideas in Prcatical Field.

SESSION –I

In Session –I, Chief Guest- Artist Vineesh Vijayan delivered the lecture about the Artwork and Design Ideas. He imported the students about the importance of Sculpture Ideas. Some Points are given below

A mural is any piece of artwork painted or applied directly on a wall, ceiling or other permanent surface. A distinguishing characteristic of mural painting is that the architectural elements of the given space are harmoniously incorporated into the picture.

Some wall paintings are painted on large canvases, which are then attached to the wall (e.g., with marouflage). Whether these works can be accurately called "murals" is a subject of some controversy in the art world.

SESSION -II

In the Second Session, the resource person act as a chair person for debate(students) Regarding.

Nature And Technique

Mural painting is inherently different from all other forms of pictorial art in that it is organically connected with architecture. The use of color, design, and thematic treatment can radically alter the sensation of spatial proportions of the building.

Wall paintings

Wall paintings are the oldest known form of painting, dating back to the prehistoric paintings in the Altamira cave in Spain and the Lascaux Grotto in France.

VALIDICTORY FUNCTION:

The workshop concluded with the valedictory session in the Auditorium. S.Vijayakumar delivered his vote of thanks.

In his speech, he thank the Principal, HOD & the coordinators of the workshop for arranging that useful workshop. Finally he concluded by suggesting that more such workshops to be conducted in future.

FEEDBACK FROM PARTICIPANTS:

- The workshop was very useful and practicable.
- It also helped us to understand the importance of wall paintings.
- Field applications of mural art are explained clearly.

Department Of Architecture

15 September 2017

Submitted to the Head-IPR:

Sir,

On behalf of our Architecture department Planned to conduct one day Seminar on 13 October 2017. We have submitted the budget for your kind perusal. Kindly give the permission to conduct above said program.

Details of the Budget

sl.no.	Bill/Purpose	Amount(Rs.)
1.	Invitation, Poster, Brochure & Banner	5,000/-
2.	Chief Guest-Transportation, Accommodation & Memento	6,000/-
3.	Food	6,000/-
4.	Prizes & Certificates	3,000/-
5.	Miscellaneous	2,000/-
Total Amount		22,000/-

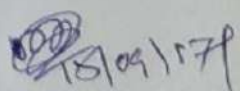

Kindly do the needful as earlier as possible

Thanking You

Yours Faithfully,

HOD/ARCH

HEAD/IPR CELL

From

Respected sir,

This is to inform you that, the Architecture department is interested to conduct a Workshop for one day October 13,2017. The Topics for the Workshop has been planned as **Workshop On Real Time Heritage Restoration**. Sir, we like to get your esteemed Permission to conduct the workshop at the Auditorium.

Thanking you

Place: Kilakarai

Date: 24.09.17

Yours Sincerely

Seminar

Workshop On Real Time Heritage Restoration

Venue: Auditorium

Date: 13 October 2017

Programme

❖ Inauguration	10.00am-11.15am
❖ Tea Break	11.15am-11.30am
❖ Invited Talk By Ar.K.Kalpana Conservation Architect	11.30am-12.30pm
❖ Lunch	12.30pm-01.30pm
❖ Debate Session by Students	
❖ Chair Person-Ar.K.Kalpana	01.30pm-03.00pm
❖ Tea Break	03.00pm-03.15pm
❖ Prize Distribution	03.15pm-04.00pm

Summary Report of the Workshop

OBJECTIVES

- ❖ To acquire the knowledge of Conservation
- ❖ To aware the importance of Conservation

PARTICIPANTS:

The Workshop had 50 students, faculty members from Architecture department & other department faculty members.

INAUGURATION:

The inaugural function was started with the "qraath"(The Praise of Almighty). Then the student organizer Arjun Ananth .S (V year student) welcomed all the dignities.

The Principal ,"Dr. Abbas Mohideen" inaugurated with his valuable thoughts about the Conservation. Then the Dean," Dr. Mohamed Jahabar delivered his speech. The HOD, Dr.G.Muthu Shoba Mohan, introduced & governed the chief guests.

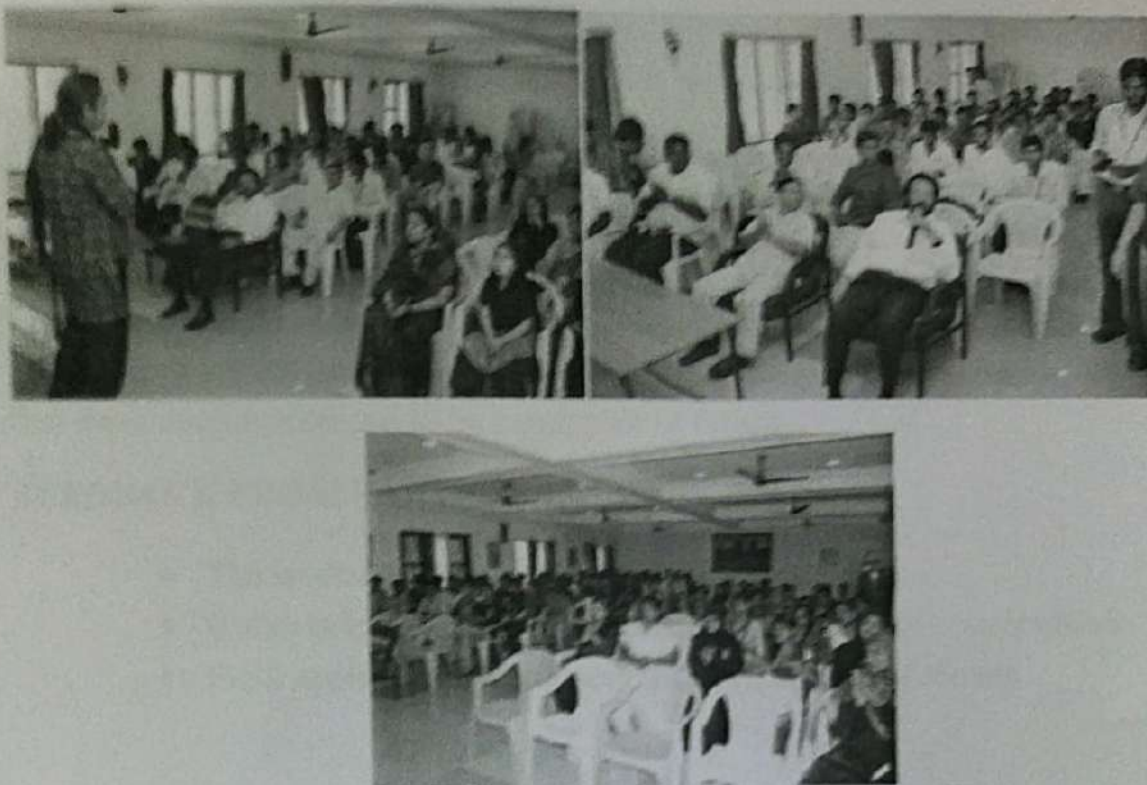

The Chief guests of the day are Ar.k.kalpana conservation architect. They gave a brief introduction & importance of Conservation.

SESSION -I

In Session -I, Chief Guest-Ar.K.Kalpana Conservation Architect delivered the lecture about the Conservation. she imported the students about the importance of Conservation. The Main point of that is given below

conservation describes the process through which the material, historical, and design integrity of any built heritage are prolonged through carefully planned interventions.

Preservation were used interchangeably to refer to the architectural school of thought that either encouraged measures that would protect and maintain buildings in their current state, or would prevent further damage and deterioration to them.

Restoration was the conservationist school of thought that believed historic buildings could be improved, and sometimes even completed, using current day materials, design, and techniques.

SESSION -II

In the Second Session, the resource person act as a chair person for debate(students) Regarding.

Current treatments

- Reservation, "places a high premium on the retention of all historic fabric through conservation, maintenance and repair.
- Rehabilitation "emphasizes the retention and repair of historic materials, but more latitude is provided for replacement because it is assumed the property is more deteriorated prior to work.

Public awareness and outreach to promote architectural conservation

- There are many organizations that work to raise public awareness of the necessity to preserve ancient and historic buildings and areas, across communities, users and government.

VALIDICTORY FUNCTION:

The workshop concluded with the valedictory session in the Auditorium. D.Jayakumar delivered his vote of thanks.

In his speech, he thank the Principal, Dean, HOD & the coordinators of the workshop for arranging that useful workshop. Finally he concluded by suggesting that more such workshops to be conducted in future.

FEEDBACK FROM PARTICIPANTS:

- The workshop was very useful and practicable.
- It also helped us to understand the importance of conservation.
- Field applications of conservation are explained clearly.

Summary Report of the Workshop

OBJECTIVES

- ❖ To acquire the knowledge of dimension's ability to change the shape of model geometry.
- ❖ To aware the importance, to design objects or systems that model component attributes with real world behavior.

PARTICIPANTS:

The Workshop had 96 students, faculty members from Architecture department & other department faculty members.

INAUGURATION:

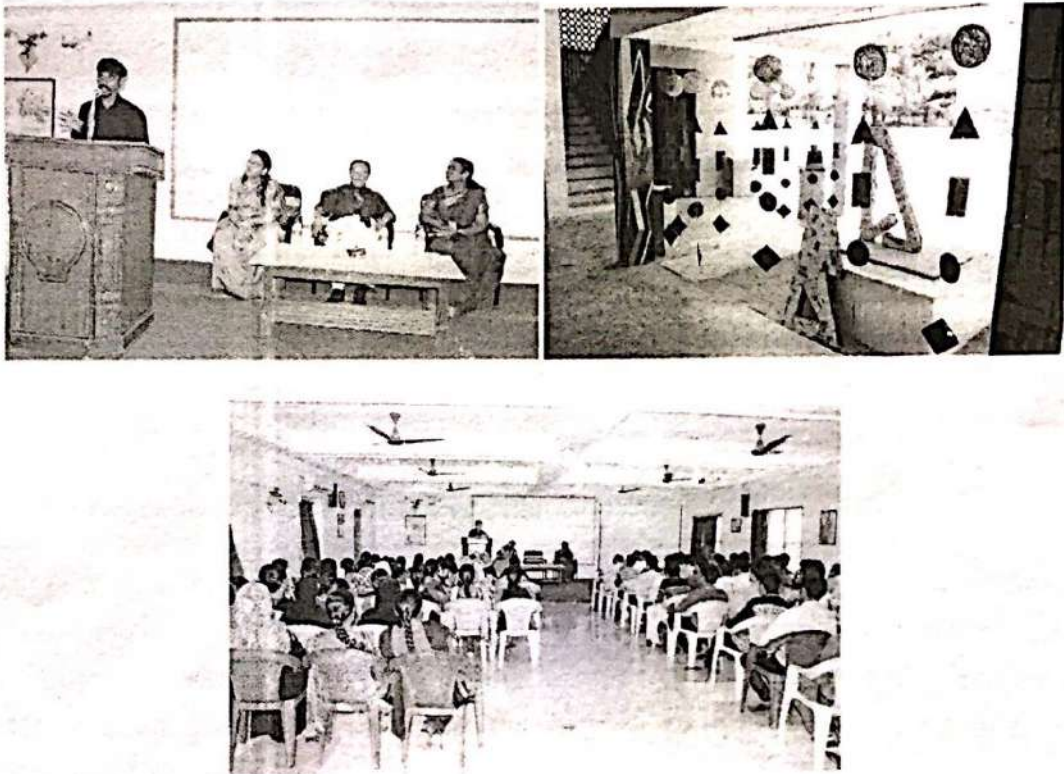

The inaugural function was started with the "qraath"(The Praise of Almighty). Then the student organizer welcomed all the dignities.

The Principal inaugurated with his valuable thoughts about the Conservation. The HOD, Dr.G.Muthu Shoba Mohan, introduced & governed the chief guests.

The Chief guest of the day are Architect Vidhya Rajendran Specialising in coding in Grasshopper Scripts. She gave a brief introduction & importance of the knowledge of dimension's ability to change the shape of model geometry.

SESSION –I

In Session –I, Chief Guest- Architect Vidhya Rajendran delivered the lecture about the **Parametric modeling** uses the computer to design objects or systems that model component attributes with real world behavior.

Parametric is a term used to describe a dimension's ability to change the shape of model geometry as soon as the dimension value is modified.

SESSION -II

In the Second Session, the resource person act as a chair person for debate(students) Regarding.

The Parametric Modeling Process

Parametric models are built from a set of mathematical equations. For parametric models to have any legitimacy, they must be based on real project information. It is the modernity of the information examination techniques and the breadth of the hidden undertaking information which decides the viability of a modeling solution.

Advantages

These are the benefits offered by 3D parametric modeling over traditional 2D drawings:

- Capability to produce flexible designs
- 3D solid models offer a vast range of ways to view the model
- Better product visualization, as you can begin with simple objects with minimal details
- Better integration with downstream applications and reduced engineering cycle time
- Existing design data can be reused to create new designs

VALEDICTORY FUNCTION:

The workshop concluded with the valedictory session in the Auditorium. M.C.Ramesh Kumar delivered his vote of thanks.

In his speech, he thank the Principal, HOD & the coordinators of the workshop for arranging that useful workshop. Finally he concluded by suggesting that more such workshops to be conducted in future.

FEEDBACK FROM PARTICIPANTS:

- The workshop was very useful and practicable.
- It also helped us to understand the importance of Parametric Modeling.
- Field applications of Parametric Modeling are explained clearly.

Respected Sir,

Sub: Getting permission to conduct a one day seminar on "Carrier opportunities in Civil Engineering Field" - Reg.

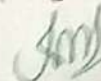

We, Civil Engineering Department are going to conduct a one day seminar on "Carrier opportunities in Civil Engineering Field" on 5th August 2015. Final year civil engineering students (68 Nos) are going to participate in the program. We invited Dr.S.Chandran, Professor / Civil from Thiagarajar College of Engineering, Madurai. We already initiated and proposed to IPR Cell head and got prior permission with financial assistance. So, kindly give us permission to conduct this seminar program.

Thanking you sir,

Yours Truly,

D. Zunaithur Rahman / AP / Civil
(Program Incharge)

PRINCIPAL

Dr.J.Mohamed Jahabar

HOD/Civil
Dr.D.Alagia Meenal

Objectives of the Seminar,

- To provide the idea about career opportunities
- To create an awareness about competitive examinations
- To give the awareness about the softwares which are useful for job searching

Participants: 68 Students + 2 Faculties

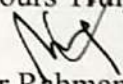

Expenditure

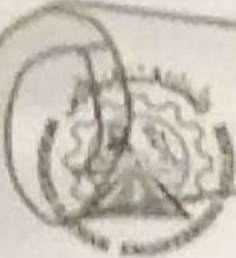

We will spend the sum of **Rs. 4,200** (Four thousand and two hundred rupees only) for conducting this seminar as follows;

1. Memento for Guest	-	Rs. 800
2. Refreshment to Chief Guest	-	Rs. 800
3. Refreshment to Participates	-	Rs. 1100
4. Certificate Printing & banner	-	Rs. 1500

Thanking you,

Yours Truly,

D. Zunaithur Rahman / AP / Civil

Summary Report of the program :

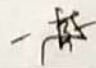

To boost up our civil engineering students, we were conducted a one day seminar on "Carrier opportunities in Civil Engineering Field". Dr.S.Chandran, Professor / Civil from Thiagarajar College of Engineering, Madurai - came here to make the program as valuable. He shared his job experience among the students and also the various civil engineering career opportunities. One of the proudable thing is, he is Alumini of our college.

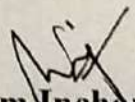

Feedback from participants:

- The experience gave by the guest was very useful.
- The ideas about the interview process and competitive exams were very useful.
- Interaction session was not conducted due to lack of time.

Respected Sir,

Sub: Getting permission to conduct a one day seminar on "**Advancements in paints and pigments Industries**"- Reg.

We, Civil Engineering Department are going to conduct a seminar on "**Advancements in paints and pigments Industries**" on 24th August 2016 for Final year students of 66 Nos. For conducting this seminar, we invited Mr.Muthukarupasamy - Head of Asian Paints group. He will present a brief idea about the paints and pigments. This seminar will be very helpful for our engineering students to know the present trends in painting materials. We already initiated and proposed to **IPR Cell head and got prior permission with financial assistance**. So, kindly give us permission to conduct this seminar.

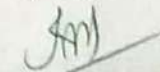

Thanking you sir,

Summary Report of the program :

A seminar, “**Advancements in paints and pigments Industries**” organized by our civil engineering department on 24th August 2016. Mr.Muthukarupasamy - Head of Asian Paints group, came to our college by accepting our request. Mr.Sarguru and Mr.Mohamed Fayaz, members of Asian Paints group came along with his head to give their experience. The three were given a very detailed explanation on the Paints and Pigments which were used in market and field recently.

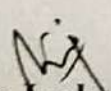

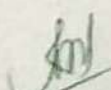

Feedback from participants:

- The experience gave by the guest was very useful.
- The ideas about the paints and pigments which are used in construction industries
- Not clearly explained about the practical difficulties using paints in site

Respected Sir,

Sub: Proposal of Workshop on "modern instrumentation surveying using recent technologies"- Department of Civil Engineering - reg.

We - the civil engineers want to conduct a one day workshop on "modern instrumentation surveying using recent technologies". In this workshop, the working method and principle of modern surveying instruments like total station and GPS are going to explain in hands on training. Really it will be useful program to our students to enhance their knowledge and get employment in this field. Here, I prepare the expecting budget of **Rs. 5,200** for conducting this workshop. Kindly, provide us the funding facility to conduct this workshop in successful manner.

Objectives of the workshop

- To enlighten the surveying methods with a recent technology
- To create an awareness about total station working methods
- To provide the knowledge on the applications of the total station
- To provide a career development idea for the students

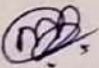

Participants: 54 Students + 3 Faculties

Expenditure

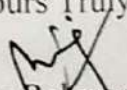

We will spend the sum of **Rs. 5,200** (Five thousand and two hundred) for conducting this workshop as follows;

- | | | |
|----------------------------------|---|----------|
| 1. Memento for Guest | - | Rs. 1400 |

Summary Report of the Workshop:

We start the workshop of modern instrumentation surveying using recent technologies was conducted on 16th September 2017 sharply at 8:30 AM. Mr. Rajasekar, Trainer cum Technical Assistant in ACCET, Karaikudi came to our institution for conduct this workshop. There were three sessions conducted for our 53 students. Session 1 (9:00 to 11:00 AM / 18 Students), Session 2 (11:00 to 1:00 PM / 18 Students), Session 3 (2:00 to 4:00 PM / 17 Students). For every session, 1 hour spent for demo class and the next one hour for hand in training in Field. Finally, the program was concluded with vote of thanks to trainer and IPR Head with memento. Feedbacks were collected from participants in a prescribed format.

Feedback from participants:

- The workshop was very useful and practicable.
- It also helped us to understand the importance and working principles of total station.
- Field applications of total station are explained clearly.
- Time is not enough to operate the instrument

Respected Sir,

Sub: Getting permission to conduct a two days workshop on Recent Trends in IPR management for Chemical Engineers- Reg.

We, Chemical Engineering Department are going to conduct a Workshop on "Recent Trends in IPR management for Chemical Engineers" on 20 and 21 August 2013 at ECE seminar hall around 10.00 am. Total No. of 28 students of Second Year (2012-16 batch) will participate in this workshop. This will be very helpful for our students in academic and develop their career. So, kindly give us permission to conduct this workshop.

Thanking you sir,

Yours Truly,

Mr. J. ROHAN, M. Tech

REPORT SUMMARY OF WORKSHOP:

We start the two days workshop of Recent Trends in IPR management for Chemical Engineers have conducted on 20 and 21st August 2013 at ECE seminar hall around 10.00am. Dr. R. Anantharaj, University Of Malaya, Malaysia came to our institution to conduct this workshop. On each day, 2 hours spent for demo class and next 2 hours for hand in training in Field. Finally, the program was concluded with vote of thanks. Feedbacks were collected from participants in a prescribed format.

Feedback from participants:

- The workshop was very useful and practicable.
- It also helped us to understand the importance of IPR in Chemical Engineering field
- Applications of IPR are explained clearly.

Enterprise Application Development On Cloud

Duration 2 days
Delivery Format Internet Lab
Certification Will prepare you for Salesforce.com Certified Developer

Venue : R&D and CASE Tools Laboratories
Department of Computer Science & Engineering
Mohamed Sathak Engineering College, Kilarai

Comprehensive and hands-on, Platform As A Service(PaaS) is the core workshop that ensures your success with Cloud. It's a must for new administrators and job seekers. We recommend fresh talents to take this workshop before starting a Cloud deployment or an experienced taking over an existing deployment.

Who should attend this workshop?

Developer & Administration Essentials is designed for:

- Students who wants to design applications on cloud and start earning during their academics!

- New system administrators responsible for the setup configuration and maintenance of their organization's cloud applications

You can take this course in person or in a virtual classroom. Participants can save travel expenses by taking the class virtually. For the virtual class, all you need is a web browser and a telephone to watch, listen, and get hands-on experience with the application.

Prerequisites

The prerequisites include a solid understanding of basic internet concepts and functionality

Start building your dream app in just 2 days!

When you complete this course, you'll be able to:

- Customize your application, including page layouts, fields, tabs and business processes
- Create a secure Cloud environment
- Manage and import data
- Create reports and dashboards
- Set up workflow automation*
- Sell your applications online*

vigo@cloudbull.asia

Enterprise Application Development on Cloud

Modules & Topics

PAAS Application Introduction

- Understand the data model and navigation

Getting Your App Ready for Users

- Set up the company profile
- Configure the user interface
- Set up activities and calendars
- Configure search settings
- Set up Chat tool

Setting Up and Managing Users

- Manage user profiles
- Create and manage users
- Troubleshoot user login issues
- Understand SAAS application capabilities
- Configure Chatting tool for external users

Security and Data Access

- Restrict logins
- Determine object access
- Set up record access
- Manage record access with the role hierarchy
- Deal with record access exceptions
- Control access to events
- Manage field-level security

Customization: Fields

- Administer standard fields
- Create new custom fields
- Create selection fields, pick lists and lookups
- Create formula fields
- Work with page layouts
- Work with record types and business processes
- Maintain data quality

About Cloud Bull Workshops

Cloud Bull has established itself as one of the most innovative and respected exhibition and conference organizers in India. A pioneer in the Indian Cloud industry, cloud events have served as important platforms for companies aiming to forge new business contacts in Asia. Our events consistently attract a high level of overseas participation with foreign exhibitors accounting for almost 30% of the show floor. Cloud Bull is a proud partner of Microsoft, Salesforce.com and Asia's largest cloud hosting company CHN-S and NASDAQ listed Five 9 Corporation USA, a global network with over 50 offices worldwide.

Subject: Seeking permission to Conduct Two Day Workshop in our premises -Reg.

The Co-curricular activities for the students have proven to contribute much to their social and academic well-being. It is also a portal where the students could express and show out their output in relation to what is being learned in the classroom.

In view of this, we would like to request your good office to allow us to conduct a Workshop with the given title: "Enterprises Hands on Training on Cloud computing applications" to be facilitated to the whole final and Third year students.

Attached herewith are the programs of activities and the objectives to be achieved.

Hoping for your favorable response about the Workshop.

Thank you very much.

KILAKARAI – 623806
DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING
REPORT OF ONE DAY SEMINAR ON
CMOS TESTING TECHNIQUES HELD ON 18/03/2015 AT ECE SEMINAR HALL

Report:

Department of Electronics and communication Engineering, Mohamed sathak Engineering college have organized a one day seminar on ‘CMOS Testing Techniques’ on 18/03/2015 in ECE Seminar hall.

The Seminar Begin with quirath by S.Bismillah Khan AP/ECE and Tamil Thai Valthu.

Head of the Department of ECE Prof.H.Peer Oli Welcomed the gathering.

Our Principal Dr.J.Mohamed Jahabar Honored the Chief Guest with shawl and Memento.HOD Electrical and Electronics Engineering Prof.Suresh Kumar honored our esteemed principal with shawl and Memento.

Our Honorable Principal Dr.J.Mohamed Jahabar Inaugurated the seminar with his Presidential address. He stressed the importance of CMOS in Computer Hardware parts and Memory Components, He also added ‘through CMOS Effortless and fastest Communication technology are evolving. In his Speech he stressed that through CMOS technology Power consumption and size of the IC’s can be drastically reduced helping in building of variety of applications.

I.Sheik Arafat AP/ECE introduced the Chief Guest to the Participants.

Our chief guest Dr. N.B.Balamurugan Associate professor Department of Electronics and communication Thiagarajar College of Engineering gave special lecture on the seminar topic ‘CMOS testing technique in two sessions.In the first session he briefed about the evolution of VLSI technology and fabrication of transistors. He also gave motivational speech for student to obtain placement and stressed the importance of miniproject for third year students. In the afternoon Session he gave special lecture on CMOS testing techniques.He briefed about the various testing procedures followed for IC validation before bringing them to market.

Feed back about the seminar is obtained from the participants.

Prof.A.Shyamala Department of ECE presents Vote of thanks and thanked the gathering.

The one day seminar ends with National Anthem.

WORKSHOP EVALUATION FORM

Name of Student: A Pamena

Dept/Year: ECE/2015

Workshop Title: CMOS Testing Techniques

Workshop Date: 18/3/15

Name of Presenter/s: Dr. N. B. Balamunigan

For the following areas, please indicate your rating:

A. Content	1 Fair	2	3	4 Excellent
Covered useful material			✓	
Practical to my needs and interests				✓
Well organized			✓	
Well paced			✓	
Presented at the right level				✓
Effective activities				✓
Useful visual aids and hand-outs				✓
B. Presentation				
Instructor's knowledge				✓
Instructor's presentation style				✓
Instructor covered material clearly				✓
Instructor responded well to questions				✓
Instructor facilitated interactions among participants well				✓

C. How could this workshop be improved?

Practical Implementation

D. Any other comments or suggestions?

More such workshops to be conducted

Overall, how would you rate this workshop?

One day workshop on medical instrumentation
was conducted by
Department of Electronics and Communication Engineering
of
Mohamed Sathak Engineering College
in association with
Meenakshi Mission Hospital and Research Centre
on
4th April 2016

The function was presided over by our college Dean Dr.Alhaj J.Mohamed Jahabar.

Our Dean described the relationship between MMHRC and MSEC as a BLOOD-BOND since our college has been receiving principal donor award from MMHRC every year. He emphasized the following points in his speech.

There are three phases in medical field:

- Diagnosis ,
- Monitoring,
- Theraphy.

Electronics Instrumentation has found its place in all these three key areas of the medical treatment. He pointed out various bio-medical instruments like blood sugar monitoring, BP apparatus etc...,that we are using in our day to day life.

With his enriched knowledge and on his own style he explained the important role of instrumentation amplifier in all the medical equipments.

He shared the experience he had with his colleagues who were experts in bio-medical instrumentation.

The portability and compatibility of medical instruments are the gift of Electronics Engineering and the future development in this field is impossible without the help of electronics that he added.

Finally he thanked Mr. Annadurai (Manager of blood bank, MMHRC) sir and Mr.Muthu kumar(Manager of bio-medical instrumentation, MMHRC)for their acceptance in the participation amidst their busy schedule.

The chief guest Mr.Muthu Kumar in his interactive speech inculcated the students in all the spheres of the bio-medical instruments .

He recorded that there are over thousands instruments and about 10,000 instruments accessories have been used in medical field.

He explained the basic instruments and handling procedures. He told about the vital signs of medical instrumentations. It included details about “ breathe rate,temperature,heart beat ,blood pressure,oxygen saturation”. He told the history, structure and handling methods about the basic instruments such as thermometer, sphygmomanometer,ECG, C arm x-ray, normal x-ray,ultra scan , defibrillator etc.,

He showed the images of instruments in operation theatre. He explained the importance of sterilization (i.e,) autoclave machine to sterilize metal equipments with the help of steam and the catheter tube with ETO(ethylene tri oxide) which is going to be banned in foreign countries as it's harmful. He created an awareness among us about the hazards in sterilization and gave ideas of safe sterilization by using H_2O_2 instead of ETO.

His speech was very useful and informative for the students. It created an awareness about hospitalization and handling the instruments used for patients . It lead to know about so many instruments that students are needed to know.

முகம்மது சதக் பொறியியல் கல்லூரியில் மருத்துவ உபகரணங்கள் கருத்துப்பட்டறை

பதிவு செய்த நேரம்: 2016-04-08 10:28:00

ராமநாதபுரம், : கீழ்க்கரை முகம்மது சதக் பொறியியல் கல்லூரியில் மின்னணுவியல், தொடர்பியல் துறை சார்பாக மருத்துவ உபகரணங்கள் குறித்த கருத்துப்பட்டறை நடந்தது. கல்லூரி முதல்வர் முகம்மது ஜகாபர்தலைமை வகித்தார். துறைத்தலைவர் பீர்ஓலி வரவேற்றார். மதுரை மீனாட்சிமிஷன் மருத்துவமனை, ஆராய்ச்சி மையத்தின் துணை மேலாளர் அண்ணாதுரை, மருத்துவ உபகரண துறை மேலாளர் முத்துகுமார் ஆகியோர் சிடி ஸ்கேன், எம்ஆர்ஐ ஸ்கேன் உள்ளிட்ட கருவிகளை மருத்துவர்கள் பயன்படுத்தும் விதம் குறித்து செயல்முறை விளக்கம் அளித்தனர். கருத்துப்பட்டறைக்கான ஏற்பாடுகளை மின்னணுவியல், தொடர்பியல் துறை பேராசிரியர்கள், மக்கள் தொடர்பு அலுவலர் நஜ்முதின் செய்திருந்தனர். துணை பேராசிரியர்

Mohamed Sathak Engineering College,
Kilakarai

Respected Sir,

Sub: Proposal of Workshop on "Internet Of Things"- Department of ECE - reg.

We - the ECE engineers wish to enhance our quality, are going to conduct a two day workshop on "Internet of Things". In this workshop, the resource persons from three different companies, enlighten & create awareness of IOT in this modern embedded world. I have prepared and expecting budget of Rs. 7000 for conducting this workshop. So, kindly, provide us the funding facility to do in great manner.

Objectives of the workshop

- To create awareness of IOT among students
- To enlighten the recent IOT tools
- To provide the knowledge of IOT, implemented in their projects.

Participants: 150 students +25 Faculties

Expenditure

We have expected that the sum of Rs. 7000 (Five thousand and two hundred) only for conducting this workshop. This includes

- | | | |
|----------------------------------|---|----------|
| 1. Memento for Guest | - | Rs. 1400 |
| 2. Refreshment to Chief Guest | - | Rs. 1600 |
| 3. Refreshment to Participates | - | Rs. 2500 |
| 4. Certificate Printing & banner | - | Rs. 1500 |

Thanking you,

Yours faithfully,

HOD/ECE

REPORT OF THE WORKSHOP

OBJECTIVES

- To acquire the knowledge & evolution of IOT
- To aware the importance of IOT in the emerging world
- To facilitate the recent IOT Tools.

PROGRAM SCHEDULE:

EVENTS	TIMINGS
Inaugration	@ 10am on 27.3.17
Refreshment	11-11.30am
Session –I(27.3.17)	(11.30 am- 1.00 pm)
II year ECE Students III year ECE Students IV year ECE students	Silicon Technologies Chrome Technologies Pantech
Session –II(28.3.17) II year ECE Students III year ECE Students IV year ECE students	Silicon Technologies Chrome Technologies Pantech
Validatory	3.45- 4.00 pm on 28.3.17

PARTICIPANTS:

The Workshop had 150 students & 25 faculty members from ECE department & other department faculty members

Inauguration:

The inaugural function was started with the “qraath”(The Praise of Almighty). Then the student organizer G.Kartheeswaran (IV year student) welcomed all the dignities.

The Principal ,”Dr. Abbas Mohideen” inaugurated with his valuable thoughts about the Internet Of Things(IOT). Then the Deen,” Dr. Mohamed Jahabar delivered his speech. The HOD, Dr. Sheik Arafat, introduced & governed the chief guests.

The Chief guests of the day were Mr.Peri Kannan from “ **PANTECH PRO- ED**”, Mr.BalaMurugan from“**CHROME TECHNOLOGIES**”& Mr.Yousuf from” Silicon Technologies”. They gave a brief introduction & importance of IOT.

SESSION –I

In Session –I, Mr.Yousuf of Silicon technologies engaged our second year Ece students. He imported the students about the evolution & introduction of IOT.

For our third year students, Mr. PeriKannan of Chrome Technologies delivered the lecture about the interconnection of IOT & Embedded Technology.

Finally, for our final year students, Mr. BalaMurugan of PanTech Pro-Ed emphasized the importance of IOT in their projects. He also explained the software tools available for IOT.

SESSION -II

In the Second Session of workshop, the resource persons of various companies explicated the recent IOT software tools for all the ECE students.

VALIDICTORY FUNCTION:

The workshop concluded with the valedictory session in the ECE seminar Hall. The final ECE student, Peer Mohamed delivered his vote of thanks.

In his speech, he congratulated the Principal, Deen, HOD & the coordinators of the workshop for arranging that useful workshop. Finally he concluded by suggesting that more such workshops to be conducted in future.

Date: 25/1/2016

Respected Sir,

Subject- Permission and Financial assistance for Workshop Conducting- Reg

In our EEE department, We are going to conduct a One day National level workshop on E-CADD on 27/2/2016. This program will surely be a platform for the students to attain knowledge and do final year project in the area of Electrical wiring and designing.

In regard with this, the estimated budget is Rs: 27,000. Hence, We kindly request your goodness to grant us permission to conduct the above mentioned program. Also it will be helpful for us if you provide financial assistance.

Objectives of the workshop

- o To teach students the basic commands necessary for creating professional electrical.
- o To controls drawings with AutoCAD Electrical software.
- o To ensure the participants perfect their skills of electrical computer aided design and drafting.
- o To ensure the participants are equipped with skills to become CAD Engineers or Electrical designers.

Participants: 52 Students + 3 Faculties

Budget Details:

Sl.No	Bill/Purpose	Amount(Rs.)
1	Invitation, Poster, Certificates	5000/-
2	Chief Guest-Memento & Refreshment	5,000/-
3	Food & Refreshment	15,000/-
4	Miscellaneous	2,000/-
Total Amount		27,000/-

Thanking You,

Yours Faithfully,

HOD/EEE

Kilakarai

Respected Sir,

Subject- Permission and Financial assistance for Workshop Conducting- Reg

In our EEE department, We are going to conduct a One day National level workshop on E-CADD on 27/2/2016. 52 students of Final Year (2015-16) will participate in this workshop eagerly. This program will surely be a platform for the students to attain knowledge and do final year project in the area of Electrical wiring and designing. We already initiated and proposed to IPR Cell head and got prior permission with financial assistant. Hence, We are kindly request your goodself to grant us permission to conduct the above mentioned program. Also it will be helpful for us if you provide financial assistance.

Date: 27/1/2016

Place: Kilakarai

Thanking you sir,

E-CADD Workshop Report

WORKSHOP TITLE: E-CADD

DATE: 27/2/2016

PANELIST / FACILITATORS:

1. Shri.S. Seeman, Regional Manager, CADD Centre Training Service, Chennai.
2. Prof. Raja. D. Pechimuthu, Certified HRD, Trainer, Chennai.

OBJECTIVES

- To teach students the basic commands necessary for creating professional electrical.
- To controls drawings with AutoCAD Electrical software.
- To ensure the participants perfect their skills of electrical computer aided design and drafting.
- To ensure the participants are equipped with skills to become CAD Engineers or Electrical designers.

PARTICIPANTS:

Final year EEE Students (52 students), faculty members from EEE department & other department faculties had participated in the workshop.

INAUGURATION:

The inaugural function was started with the “Quirath” (The Praise of Almighty). Then the staff organizer Prof. N.Ahamed Hussain Asif AP/EEE welcomed all the dignities.

The Principal, “Dr. J.Mohamed Jahabar” inaugurated with his valuable thoughts about the Electrical CADD. The HOD, Dr.U.Suresh Kumar, introduced & governed the chief guests.

The Chief guests of the day were Shri.S. Seeman, Regional Manager, CADD Centre Training Service, Chennai and Prof. Raja. D. Pechimuthu, Certified HRD, Trainer, Chennai. They gave a brief introduction & importance of Electrical CADD.

SESSION –I

In Session–I, Shri. S. Seeman, Regional Manager, CADD Centre Training Service, Chennai delivered the lecture about the Electrical CADD.

He imported the students about the importance of Electrical CADD.. The Main point of that is given below.

Electrical engineers design electrical equipment and electronic products - from microchips & computers to electric power networks - and any other products that process information and transmit energy. The primary task of Electrical Engineers is circuit designing or Schematic diagram.

Circuit designers have the responsibility of designing electronic circuits that make up electrical systems. The minimum educational requirement is a bachelor of science in engineering, some employers require a master's in electrical engineering. Since circuit designs change frequently, this career requires a greater amount of continuing education to keep up with technology updates.

Role in Industries:

Electrical CADD software can automate all design tasks and facilitate drafting productivity. Engineers can create electrical schematic, control circuit diagrams, and documentation using industry specific electrical soft tool.

SESSION –II

In Session–II, Prof.Raja. D.Pechimuthu, Certified HRD, Trainer, Chennai. delivered the lecture about opportunities in the Electrical CADD.

Employment:

Electrical Circuit designers work in a variety of engineering industries including aerospace, automotive, chemical, construction, defence, electronics, consumer goods, marine, materials & metals, oil & gas, pharmaceuticals, power generation, rail, telecom, and utilities. Circuit technology is constantly changing, new and updated circuits are continuously needed. For this reason, circuit designers should expect good employment opportunities in years to come.

Entry-level Salary:

Upto Rs 2 lakh per annum (in India)

Job Titles:

Students who have completed these basic CAD courses can apply for the jobs of Circuit Design Engineer / Electrical Designer / Control Engineer / Energy Transmission Engineer

VALIDICTORY FUNCTION:

The workshop concluded with the valedictory session in the Mechanical Seminar Hall. Prof S. Lakshmi Kanthan Bharathi ASP/EEE delivered his vote of thanks.

In his speech, he thanks the Principal, HOD & the coordinators of the workshop for arranging that useful workshop. Finally he concluded by suggesting that more such workshops to be conducted in future.

FEEDBACK FROM PARTICIPANTS:

- The workshop was very useful and practicable.
- It also helped us to understand the importance of E-CADD.
- Field applications of E-CADD are explained clearly.

Participant List:

MOHAMED SATHAK ENGINEERING COLLEGE
KILAKARAI - 623 806.

Department Of Electrical & Electronics Engineering

Submitted to the Head-IPR Cell

Date: 20/1/2017

Respected Sir,

Subject- Permission and Financial assistance for PLC-SCADA Workshop Conducting- Reg

In our EEE department, We are going to conduct a Two day National level workshop on PLC-SCADA on 24/2/2017 & 25/2/2017. This program will surely be a platform for the students to attain knowledge and do final year project in the area of Programmable Logic Controller and SCADA.

In regard with this, the estimated budget is Rs: 37,000. Hence, We kindly request your goodself to grant us permission to conduct the above mentioned program. Also it will be helpful for us if you provide financial assistance.

Objectives of the workshop

The main objective of this workshop is to make the aspiring engineers acquainted with the conceptual as well as practical knowledge of the Industrial Automation & latest technologies being used to achieve industrial automation. The idea of organizing this workshop is to inculcate the basic fundamentals of automation in the students and provide them with a platform to work on, in the near future.

Participants: 51 Students + 5 Faculties

Budget Details:

Sl.No	Bill/Purpose	Amount(Rs.)
1	Invitation, Poster, Certificates	5000/-
2	Chief Guest-Memento & Refreshment	5,000/-
3	Food & Refreshment	25,000/-
4	Miscellaneous	2,000/-
Total Amount		37,000/-

Thanking You,

Yours Faithfully,

ABOUT THE INSTITUTION
Mohamed Sathak Engineering College is the first self-financing college to earn the approval of the Government of Tamil Nadu in 1984. All India Council for Technical Education (AICTE), New Delhi has approved all the courses offered by this institution. Currently all the programmes are affiliated to Anna University, Chennai. The college offers 10 UG and 8 PG programmes. With the vision to ensure rapid development, our institution is governed by an autonomous Governing Council. The Governing Council is vested with full powers of administration and management of the affairs of the college rests with Alhaj S.M.Yousuf Sahib as the Chairman & Correspondent and Hajiyani S.M.H.Shamila as the Secretary. The academic council is powered by Dean Alhaj Dr. J.Mohammed Jahabar and Principal Dr.J.Abbas Mohaideen.

ABOUT THE DEPARTMENT
The Department of Electrical and Electronics Engineering was started in 1995. The Department offers 4 Years U.G program with an intake of 60 and 2 years P.G Program (M.E.-Power Systems Engineering) with an intake of 24. The Department provides Opportunities to the students to face the future world with latest technical knowledge through research, good leadership qualities, industry-institution interaction and spirit of competence. The Department is fully equipped with state of art laboratories and Classrooms. The Department Computer Centre has most versatile, powerful and widely networked computer systems with the latest licensed softwares like Mi Power, MATLAB, Xilinx, CYME, PSPICE and PSCAD.

LOCATION
Our College is located at Ramanathapuram-Kanyakumari National Highway about 18Kms from Ramanathapuram Bypass and 3 Kms from Kilakarai.

OBJECTIVE
The objective of this workshop is to present an overview of recent technological developments and ongoing research in the field of PLC and SCADA.

PROGRAMME BENEFITS
THEORY

- Advanced training in the layout, wiring, programming, trouble shooting and implementation of PLCs.
- Monitoring and controlling operations in real time using SCADA software.

PRACTICAL

- Hands on experimentation on real industrial PLCs and other industrial components
- SCADA software implementation

RESOURCE PERSONS
Experts from PROLIFIC Training, Chennai.

PARTICIPANTS
Faculty members of Engineering colleges, research scholars, PG Students and professionals from R&D organizations/industries.

REGISTRATION DETAILS
Registration Fee: Rs.3000/-
(Registration fee includes Kit, Lunch and refreshment)

HOW TO APPLY
The applicants are requested to send the registration form available in this brochure through their institution head to reach us on or before 22.02.2017

IMPORTANT DATES
Last Date For Registration: 22.02.2017

PLC-SCADA Workshop Report

WORKSHOP TITLE: PLC-SCADA

DATE : 24/2/2017 and 25/2/2017

PANELIST / FACILITATORS:

1. Mr.P.Rajapandian, Asst Manager (Technical), Prolific Systems & Technologies Pvt Ltd. Chennai.
2. Mr. G.Prithviraj, Core Research Group Engineer, Prolific Systems & Technologies Pvt Ltd. Chennai.
3. Mr. Suresh kumar, Core Research Group Engineer, Prolific Systems & Technologies Pvt Ltd. Chennai.

OBJECTIVES

The main objective of this workshop is to make the aspiring engineers acquainted with the conceptual as well as practical knowledge of the Industrial Automation & latest technologies being used to achieve industrial automation. The idea of organizing this workshop is to inculcate the basic fundamentals of automation in the students and provide them with a platform to work on, in the near future.

PARTICIPANTS:

Final year EEE Students (51 students), faculty members from EEE department & other department faculties had participated in the workshop.

INAUGURATION:

The inaugural function was started with the “Quirath” (The Praise of Almighty). Then the staff organizer Prof. N.Ahamed Hussain Asif AP/EEE welcomed all the dignities.

The Principal, ”Dr. Abbas Mohideen” inaugurated with his valuable thoughts about the workshop PLC-SCADA. Then the Dean,” Dr. Mohamed Jahabar delivered his speech. The HOD, Dr.U.Suresh kumar, introduced & governed the chief guests.

The Chief guests of the two days were Shri Mr.P.Rajapandian, Asst Manager (Technical), Mr. G.Prithviraj, Core Research Group Engineer, Mr. Suresh kumar, Core Research Group Engineer, Prolific Systems & Technologies Pvt Ltd. Chennai. They gave a brief introduction & importance of Electrical CADD.

SESSION –I (24/2/17-Forenoon)

In Session–I, Mr.P.Rajapandian, Asst Manager (Technical), Prolific Systems & Technologies Pvt Ltd. Chennai delivered the lecture about the PLC-SCADA.

He imported the students about the importance and Recent trends of PLC-SCADA. The Main points of that are given below.

Session I: Presentation on Recent Trends in Industrial Automation & PLC-SCADA

- Introduction To Automation
- Why We Need Automation
- Where Automation?
- Evolution In Industrial Automation (A Brief History)
- Different Type Of Industrial Control Mechanisms)
- Introduction To PLCs
- PLC Advantages Over Microcontrollers
- Area Of Applications
- DATA Flow During Automation
- Motor Drives Introduction & Their Need
- Sensors Introduction & Their Need
- HMI Introduction & Its Need
- SCADA Introduction& Its Need

SESSION –II (24/2/17-Afternoon)

In Session–II, Mr. G.Prithviraj, Core Research Group Engineer, Prolific Systems & Technologies Pvt Ltd. Chennai delivered the lecture about Detailed study of PLC-SCADA.

Session II: Detail study of PLC & SCADA

- PLC
- SCADA

SESSION –III (25/2/17-Forenoon)

In Session–III, Mr. G.Prithviraj, Core Research Group Engineer, Prolific Systems & Technologies Pvt Ltd. Chennai delivered the lecture about PLC-SCADA input and output basics.

Session III: PLC I/Os Basics, Burning & Interfacing Concepts

- Allen Bradley & Rockwell Automation's Details
- Brief Description To Input/ Output Pins Of Micrologix-1000
- Ladder Diagram Basics
- Introduction To RSLogix
- Downloading A Ladder Program In PLC Using RSLinx.
- How To Take Input From Panel
- How To Give Output To Panel
- Running First PLC Application.

SESSION –IV (25/2/17-Afternoon)

In Session–IV, Mr. Suresh kumar, Core Research Group Engineer, Prolific Systems & Technologies Pvt Ltd. Chennai delivered the hands on training to the PLC trainer kit.

Session IV: Hands on PLC Training Kit

- Participand will perform hands on PLC training Kit.

VALIDICTORY FUNCTION:

The workshop concluded with the valedictory session in the EEE Seminar Hall. Prof S. Lakshmi Kanthan Bharathi ASP/EEE delivered his vote of thanks.

In his speech, he thanks the Principal, HOD & the coordinators of the workshop for arranging that useful workshop. Finally he concluded by suggesting that more such workshops to be conducted in future.

FEEDBACK FROM PARTICIPANTS:

- The workshop was very useful and practicable.
- It also helped us to understand the importance of PLC-SCADA.
- Field applications of PLC-SCADA are explained clearly.
- By the end of this workshop the students will become aware about the basic Knowledge of Industrial Automation, PLCs and their relevant module.

Department Of Electrical & Electronics Engineering

Submitted to the Head-IPR Cell

Date: 21/2/2018

Respected Sir,

Subject- Permission and Financial assistance for Seminar Conducting- Reg.

In our EEE department, We are going to conduct a Two days National level Seminar "Optimization Techniques in Power System Restructuring (OTPSR'18)" on 23/3/2018 & 24/3/2018. This program will surely be a platform for the students to attain knowledge about the restructuring of power systems.

In regard with this, the estimated budget is Rs: 37,000. Hence, We kindly request your goodness to grant us permission to conduct the above mentioned program. Also it will be helpful for us if you provide financial assistance.

Objectives of the workshop

- o To provide electricity for all reasonable demands.
- o To encourage the competition in the generation and supply of electricity.
- o To improve the continuity of supply and the quality of services.
- o To promote efficiency and economy of the power system.

Participants: 53 Students + 4 Faculties

Budget Details:

SLNo	Bill/Purpose	Amount(Rs.)
1	Invitation, Poster, Certificates	5000/-
2	Chief Guest-Memento & Refreshment	5,000/-
2	Food & Refreshment	25,000/-
4	Miscellaneous	2,000/-
Total Amount		37,000/-

Thanking You,

OTPSR SEMINAR Report-2018

WORKSHOP TITLE: Optimization Techniques in Power System Restructuring.
(OTPSR'18)

DATE: 23/3/2018 & 24/3/2018

PANELIST / FACILITATORS:

1. Dr.K.S.Srinivasan, Principal, Chennai Institute of Technology, Chennai.
2. Prof. R.Devarajan, Department of EEE, Vinayaga Mission Kirupananda Variyar Engineering College, Salem.
3. Dr.P.Somasundaram, Department of EEE, Anna University (Guindy Campus) Chennai.

OBJECTIVES

- To provide electricity for all reasonable demands.
- To encourage the competition in the generation and supply of electricity.
- To improve the continuity of supply and the quality of services.
- To promote efficiency and economy of the power system.

PARTICIPANTS:

Final year EEE Students (53 students), faculty members from EEE department & other department faculties had participated in the workshop.

INAUGURATION:

The inaugural function was started with the “Qurath” (The Praise of Almighty). Then the staff organizer Prof. N.Ahamed Hussain Asif AP/EEE welcomed all the dignities.

The Principal, ”Dr. Abbas Mohideen” inaugurated with his valuable thoughts about this seminar Optimization Techniques in Power System Restructuring. Then the Dean,” Dr. Mohamed Jahabar delivered his speech. Then the HOD of EEE department introduced & governed the chief guests.

The Chief guests of the two days were Dr.K.S.Srinivasan, Principal, Chennai Institute of Technology, Chennai, Prof. R.Devarajan, Department of EEE, Vinayaga

Mission Kirupananda Variyar Engineering College, Salem and Dr.P.Somasundaram, Department of EEE, Anna University (Guindy Campus) Chennai. They gave a brief introduction & importance of Power System Restructuring.

SESSION –I (23/3/2018 Forenoon)

In Session–I, Dr.K.S.Srinivasan, Principal, Chennai Institute of Technology, Chennai, delivered the lecture about the Operation of Restructured Power Systems.

.Operation of Restructured Power Systems

- System Operation in a Competitive Environment
- Reliability-related Functions
- Market-related Functions
- Effects of Industry Restructuring on System Reliability
- New Requirement for Computation Tools and Software Systems in Electricity Markets

SESSION –II (23/3/2018 Afternoon)

In Session–II, Prof. R.Devarajan, Department of EEE, Vinayaga Mission Kirupananda Variyar Engineering College, Salem. delivered the lecture about Introduction to power system restructuring.

He imported the students about the Introduction to power system restructuring. The main point of that are given below.

The power industry across the globe is experiencing a radical change in its business as well as in an operational model where, the vertically integrated utilities are being unbundled and opened up for competition with private players. This enables an end to the era of monopoly. Right from its inception, running the power system was supposed to be a task of esoteric quality. The electric power

was then looked upon as a service. Control consisting of planning and operational tasks was administered by a single entity or utility. The vertical integration of all tasks gave rise to the term – vertically integrated utility. The arrangement of the earlier setup of the power sector was characterized by operation of a single utility generating, transmitting and distributing electrical energy in its area of operation. Thus, these utilities enjoyed monopoly in their area of operation. They were often termed as monopoly utilities.

SESSION –III (24/3/2018 Forenoon)

In Session–III, Prof. R.Devarajan, Department of EEE, Vinayaga Mission Kirupananda Variyar Engineering College, Salem. delivered the lecture about Understanding the restructuring process. The main point of that are given below.

Understanding the restructuring process

The process of deregulation has taken different formats in different parts of the world. Also, the reasons for power sector to adopt the reforms vary from country to country. For the developed countries, introduction of competition to achieve social welfare was probably the most important reason. On the other hand, the developing countries mainly banked on the capacity addition through entry of private players. It is observed that neither, there is one reason for driving deregulation of power industry nor is there a single objective of the same.

The restructuring process starts with the unbundling of the originally vertically integrated utility. This essentially leads to separate the activities involved in an integrated power system leading to creation of functional partition amongst them. For example, the unbundling of power industry involves separating transmission activity from the generation activity. Further, distribution can be separated from transmission. Thus, these three mutually exclusive functions are created and there are separate entities or companies that control these functions. Then, the competition can be introduced in the generation activity by allowing other private participants in this segment. In contrast to the vertically integrated case where all the generation is owned by the same utility, there is a scope for private players to sell their generation at competitive prices. The generators owned by the earlier vertically integrated utility will then compete with these private generators. The transmission sector being a natural monopoly is most unlikely to have competing players in the sector. This is because for natural monopolies like transmission companies, the business becomes profitable only when output is large enough.

SESSION –IV (24/3/2018 Afternoon)

In Session–IV, Dr.P.Somasundaram, Department of EEE, Anna University (Guindy Campus) Chennai delivered the lecture about the benefits associated with restructuring.

The main point of that are given below.

The benefits associated with restructuring are:

- Optimization of energy supply will take place.
- Systems capacity will be used efficiently.
- Price of the electricity will become clearer.

- Consumer choice will be improved.
- Bad technologies are ignored and good technologies will be adopted to attract the choices of consumers..
- Electricity prices will decrease due to competition.
- The usage efficiency is improved due to restructuring in price signals.
- Power flow will takes place from surplus areas to shortage areas.
- The cost of ancillary services is reduced by reserve sharing.

VALIDICTORY FUNCTION:

The seminar concluded with the valedictory session in the ECE Seminar Hall. Prof S. Lakshmi Kanthan Bharathi ASP/EEE delivered his vote of thanks.

In his speech, he thanks the Principal, Dean, HOD & the coordinators of the seminar for arranging that useful seminar. Finally he concluded by suggesting that more such seminars and workshops to be conducted in future.

FEEDBACK FROM PARTICIPANTS:

- These seminar was very useful and practicable for EEE and Power system Engineers.
- It also helped us to understand the importance of restructuring of power systems.
- Field applications of Power System Restructuring are explained clearly.

Participant List:

Respected Sir/ Madam,

Subject: Invitation for Seminar on "Research Issues In
Knowledge Management".

We take immense Pleasure in informing you that the department of information technology at Mohamed Sathak Engineering College is organizing ISTE Sponsored one day National level Seminar on "Research Issues In Knowledge Management" on 18th September 2013 in our College premises.

The main goal of this seminar is to bring together students, research scholars, engineers and faculty members working in the area of engineering & technology. It would be our privilege to have the presence and participation of your college faculty, students, (UG&PG) and employees of your concern for this technical meet.

Herewith the information brochure enclosed in and I request you to display this in both staff and student notice board. The details can also be obtained from our college website www.msec.org.in.

Awaiting your entires to make this seminar a grand success.

(An ISO 9001:2008 Certified Institution)

Approved by AICTE, COA New Delhi, DGS Mumbai

Accredited by NBA, AICTE, New Delhi

Affiliated to Anna University, Chennai.

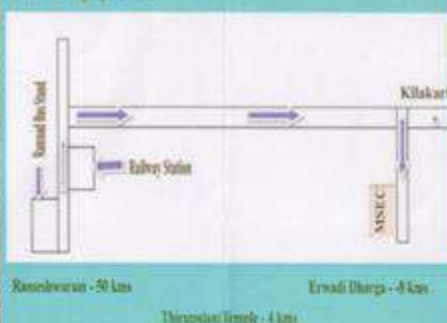

About MSEC

Mohamed Sathak Engineering College is the first Self-financing college to earn the approval of the government of Tamil Nadu founded in 1984. All India Council for Technical Education (AICTE), New Delhi has approved all the 10 UG courses including Aeronautical, Marine and School of Architecture and 8 PG courses offered by this institution. The college is Accredited by National Board of Accreditation (NBA), New Delhi and ISO 9001:2008 Certified Institution. Located in Kilakarai, Ramanathapuram - Dist. It inculcates a spirit of learning and discipline in a campus that offers top class facilities to its students.

About the Department

The Department of Information Technology was established at 1999 to meet the demand for well-qualified computer professionals. Till now 8 batches of students have been graduated. Many of the alumni of IT Department were employed and got placed in prominent Software companies. Some of the alumni were pursuing higher studies abroad. IT department mission is developing young students to excel in and get proficiency in latest trends in Information and communication Technology. IT department is striving set up Center of excellence in the areas of "Text Mining" and "Multimedia Technology". It focuses on holistic learning and empowering students to make significant contributions at all levels. The cafeteria system of electives gives a handful of choices for students to develop expertise in their area of interest. It has one of the best infrastructures including domain-specific labs, Library, State of the art facilities (with Wi-Fi Enabled campus) and qualified and experienced faculty members in various specializations.

Route Map of MSEC

About Seminar

The growth of knowledge management practices in India has been limited mainly in the service industries like IT, Consultancy, and some of the electronics and communication industries where innovation and redesigning of business processes are frequently practiced to gain competitive advantage. Customer satisfaction, retaining crucial talents, developing new modes of services are some major reasons of launching knowledge management programme. Collecting, storing and sharing are some important steps of handling ideas where is creating and innovating new ideas of doing business are crucial to meet complex challenges. The success of KM is also based on implicit culture of the organization, the philosophy and belief of trust, giving people the continuous learning opportunities.

About the ISTE

The Indian Society for Technical Education (ISTE) is a National, Professional, Non - Profit making Society registered under the Societies Registration Act of 1860. It has 72947 member among technical teachers and more than 3.7 lakh student members in the country. ISTE has 1925 institutional members, 977 chapters and 1061 student chapters

Intellectual Property Rights Cell

Intellectual property rights (IPR) are now becoming institutional tools that allow for the creation of markets to stimulate private initiatives in creation of intellect and knowledge based economy. Basically, this amounts to restricting access to knowledge by granting temporary exclusive rights to new knowledge and thus enabling the inventor to set a price for its use.

The main objective of the program is to encourage, recognize and protect all creative and scholarly works in the form of patents, copyrights, industrial designs, trademarks and trade secret, as the case may be, developed by the potential innovators especially the students as a result of their research.

Inaugural Session:

The Program will consist of an Inaugural Session and a Technical Session that will cover the basic concepts to the detailed aspects of nationally and internationally accepted norms of IPR regime. The inaugural commenced at 10'o clock on 27th July 2013 in MBA Seminar Hall. Mr.M.Abbas Malik, Head/IPR Cell and also Professor and Head, Management Studies welcomed the gathering. Dr. J.Mohamed Jahabar, The Principal of the college inaugurated the Program by lighting the ceremonial lamp and delivered the inaugural address.

Technical Session:

The technical session started with an excellent and interactive presentation on the "Copyright Systems in India" by Dr.C.Muthuvelayutham, Associate Professor, Department of Management Studies, Anna University Regional Campus, Madurai. Dr.C.Muthuvelayutham started by explaining the importance of IPR in the present scenario. The history of copyright, followed by the different types and the dual role played by copyrights were discussed. The talk gave a clear idea about the different rights granted by copyright such as the economic and moral rights, about right of paternity and right of integrity which comes under the moral rights. The topic of infringement of copyright was dealt with in detail. The session also gave an idea about the section 52 of the copyright law.

This technical session on IPR created great awareness among students, research scholars and faculty of Mohamed Sathak Engineering College about the important concepts related to IPR, copyrights and patent issues. The programme included

discussions on the importance of IPR and their protection, an overview on copyright systems in India, identification of IP, patenting tools, procedure, etc.

The Program came to an end at 4 pm with the vote of thanks by Dr.N.Shankar, Associate Professor, Management Studies.

Report on Workshop by Mr. M.S.Muthuraman

Name of the Person: . Mr. M.S.Muthuraman

Designation: Consultant, Winner Council, Chennai

Session Topic: Success Formula

Date of Programme: 04/04/2014

Number of Days: One day

Objectives of the workshop

1. To educate the students towards entrepreneurship.
2. Secrets behind the success in the field of entrepreneurship.
3. To develop wide vision towards success.
4. To enhance the feeling towards social responsibility .

Content:

1. Successful people have an attitude towards openness.
2. Be Passionate towards what you do.
3. Focus on your strength.
4. Never consider the possibility of failures.
5. Plan accordingly
6. Work hard.
7. Willingness to work
8. Discipline.

Feedback

1. It created awareness on success towards entrepreneurship among the students.
2. The workshop was useful to realise the innate potentiality of them
3. It is useful in all aspects of life.
4. Participants expressed that content of programme is really informative.

Report on Workshop by Dr. K. Senthil

Name of the Person: Dr. K. Senthil

Designation: Professor & Head

Institution Name: Chettinad College of Eng. & Technology, Karur.

Topic: Workshop on IBM - SPSS as a case for intellectual Property Rights

Date of Seminar: 12th April 2017 /FN

Time: 10 am-1 pm

Objectives of the workshop

1. The programme is to give an introduction and to acquire basic knowledge on IPR as IBM - SPSS.-A Case.

2. The main objective of the workshop is to learn the specifics about **IPR** and IBM-SPSS

3. It is to introduce the students that how IPR is prudently safeguarding and helping IBM.

Summary

The main objective of the workshop is to broaden and strengthen the knowledge of IPR. The whole Programme is divided into two parts. The morning session emphasise the IPR on IBM-SPSS and the afternoon session is for the illustrations in SPSS. The resource person explained that the basically software is used for analysing data and obtain information and corporate are using the same for marketing intelligence. Such software is the intellectual property of companies. The workshop showcased IPR has become a significant one in changing global business competition. With a high investment and rapid technological changes IPR is protecting the concern in all aspects and preventing it to inadequate return. The chief guest thus discussed the advantages of IPR in order to create interests among the students. It ended with the conclusion that IPR is critical to fostering innovation.

Course Content: Morning Session

1. Introduction of Intellectual Property Rights (IPR)
2. Copyrights of IBM- SPSS
3. Trademarks of IBM
4. Role of Intellectual Property drives economic growth.
5. Role Intellectual Property in creating competitiveness.
6. IPR encourages innovation and creativity.

Feedback

1. The workshop was useful and highly application oriented.
2. It created awareness on IPR among the students
3. The students expressed their discontent on time duration i.e., they expect the workshop is at least for two days.

In the Name of Allah, the most beneficent, the most merciful

SUMMARY OF LIFE SKILL DEVELOPMENT PROGRAMME

Life skills programs are designed to teach a broad set of social and behavioral skills—also referred to as “soft” or “non-cognitive” skills—that enable individuals to deal effectively with the demands of everyday life. To grow into well-functioning adults, it is critical that youth learn key life skills. Life skills include critical and creative thinking, decision-making, effective communication, as well as skills for developing healthy relationships and a positive self-concepts. Life skills help people make responsible and informed choices and can promote healthy lifestyles as well as career skills. According to WHO, life skills may be defined as “abilities for adaptive and positive behavior, that enable individuals to deal effectively with the demands and challenges of everyday life.

In addition to the core skills outlined below.

Core Life Skills

- Self-confidence
- Respecting self and others
- Interpersonal skills (empathy and compassion)
- Managing emotions
- Personal responsibility (including dependability, integrity and, work ethic)
- Positive attitude and self-motivation
- Conflict management
- Teamwork
- Communication (listening, verbal, written)
- Cooperation and teamwork
- Creative thinking
- Critical thinking and problem solving
- Decision making

A LIFE SKILL DEVELOPMENT PROGRAMME

Students Feedback

Year: II Year & III Year MCA Students

Date: 3rd September 2015, 10.30 A.M.

Venue: CSE Seminar Hall.

Number of students participated: 47

Feedback by Students:

A.Thurrul Mukthar – III MCA

This session was very good & very useful; we are very satisfied with your speech & your kit that you have given. We like to spend our remaining life in the way we want to, especially in analyzing ourselves thoroughly to lead our life. Like you told us, we will do our best to do this effectively. Once again thanks for your speech.

B. Abinaya - III MCA

Your speech was extraordinary and the tools are unique to practice with. We learnt how to lead our lives and career. We identified our innate identity to achieve every dreams and desires. Hope you will turn millions of life through this training. Thank you.

S. Arafath - III MCA

I feel this program will be useful for our life. I like this program and it is important for our life. We need this intensive life transforming identity program for us in future.

N. Al Imthiyas - II MCA

I felt a lot of change within me after attending this program. I understood my potentials and capacities through this session. I can feel a lot of positive variations in my thoughts and deeds. Thank you Ginx Powerology for transforming my life.

M. Navina - II MCA

I will thoroughly follow the motto "Be yourself" and I will never give up in life. You have inculcated motivational values and thoughts within me. It gave me mental strength and confidence. I have found a new entry to my life through your session.

Sir,

Sub: Confirmation of date for the Workshop on “Modern Trends in the Field Of FEM” on 19.03.2016-regd.

It gives great pleasure in inviting you to be the chief guest for the workshop on FEM application in engineering preferably on 19.03.2016 at 10.00 AM. Kindly share your enormous experience and your expertise with our students in the workshop. I sure that the faculty members and students of Mechanical department will gain knowledge and get motivated to perform better.

Kindly communicate your acceptance at the earliest, Expecting your valuable reply.

Thanking you,

" Workshop on Modern Trends In the Field Of Fem "

Students Feedback Analysis Report

Year: IV year Aeronautical and Mechanical Engineering students

Date: 19th March 2016, 10.00 A.M.

Venue: ECE Seminar Hall.

Number of students participated: 128

Feedback by Students:

"Workshop on MODERN TRENDS IN THE FIELD OF FEM" was conducted for the IV year students on 19.03.2016. The feedback received from students following are the observations made:

- Program/course content – **Very Good**
- Rate the lecture sessions / presentations – **Good**
- Rate interactive sessions – **Good**
- Usefulness of program in improving your skills – **Good**
- Improved your knowledge / skills after attending the program – **75% - 85%**
- Rate the timely communication in all aspects of the program – **Good**
- Rate the overall arrangement and conduct of the program/ course – **Good**
- Contents discussed were relevant to the topics planned – **Yes**
- Would you like to have another program by the same Resource person – **Yes**

SUMMARY OF PROGRAM:

One day workshop on "**MODERN TRENDS IN THE FIELD OF FEM**" was organised by Department of Mechanical Engineering on **19.03.2016**.

Chief Guest

Dr. R. Azad Ahamed, K.C.G. College of Technology, Chennai

Alhaj.S.M.Yousuf, chairman, Mohamed Sathak Trust, Hajiyan.S.M.H.Sharmila, Secretary-Mohamed Sathak Trust, was present in the program. Alhaj.Dr.Mohamed Jahabar. Deen-MSEC inaugurated this one day workshop, Mr S. Dr. R. Azad Ahamed, from K.C.G. College of Technology, Chennai delivered lectures on applications of FEM to the students. The topics discussed in this Industrial Attachment Program are the applications of FEM and also the job offers in this analysis field.

Then he delivered the special clarification for the student about the latest innovative trends in analysis field. He shared his experience with the students and insisted them to learn the basic concept of the subjects which will help them to get into different companies. 79 students from our department attended this workshop. Interaction session was conducted at the end of the program.

In the name of Allah the most Beneficent, the most Merciful

SUMMARY AND FEEDBACK FOR PORT SAFETY

Commandant H.H. Moore was given a warm welcome by our Marine Engineering Cadets in the way of doing customary Parade. Chief guest accepted the salute given by young cadets. He has Explained the Importance of Port safety to the cadets. He has Explained about the Level of security to be implemented in port. There are Various levels of Security like I, II, III, IV. In the SOLAS convention of IMO, International ship and port security code is mandatory for all Crew members on-board ships.

FEEDBACK FROM STAKEHOLDERS

The Primary Stakeholder of the One day workshop is Marine Engineering cadets. They gave a Positive feedback on the Safety measures shared by commander. It has given a good Knowledge on measures taken by Crew members on-board to implement safety standards .Secondary stakeholders are the Parents who showed their happiness and concern in organizing such programme during Parent teachers meeting. Management felt very happy in inviting such personalities and creating good atmosphere for the students
